September 28, 2015

The Honorable Jay Nixon, Governor
Members of the Missouri Legislature
Members of the Missouri Highways and Transportation Commission
Citizens of the State of Missouri

The Missouri Department of Transportation (MoDOT or the Department) is pleased to submit the Comprehensive Annual Financial Report (CAFR) of the Department for the fiscal year ended June 30, 2015.

Revised Statutes of Missouri, Section 21.795, require the Department, an agency of the state of Missouri, to have a financial statement audit performed annually by an independent certified public accountant. In fulfillment of this requirement, as well as bond requirements, the Department prepared this CAFR and contracted with the independent auditing firm of RubinBrown, LLP to audit the financial statements.

The objective of the independent audit is to provide reasonable assurance the financial statements are free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion and that the Department's financial statements for the fiscal year ended June 30, 2015, are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United States of America (GAAP). Their report is presented as the first component in the financial section of this report.

GAAP requires management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis. This letter of transmittal is designed to complement Management's Discussion and Analysis, which can be found immediately following the report of the independent auditors, and should be read in conjunction with it.

The CAFR comprises all funds from which MoDOT spends including certain other state agencies' spending as allowed by Missouri law. Only MoDOT appropriations are reported for other state of Missouri funds. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Department.

To provide a reasonable basis for making these representations, the Department has established a comprehensive internal control framework designed to protect the Department's assets from loss, theft, or misuse and to compile reliable information for the preparation of the financial statements in conformity with GAAP. The Department's internal control includes both automated controls, which are an integral component of the financial accounting system, and comprehensive policies and procedures. In addition, the Department's Audits and Investigations Division is an independent audit unit that performs audits of the various districts and divisions of the Department.

Because the cost of internal controls should not outweigh their benefits, the Department's comprehensive framework of internal control has been designed to provide reasonable rather than absolute assurance that the financial statements are free from material misstatements.

To the best of our knowledge and belief, this financial report is complete and reliable in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds. All disclosures necessary to enable the reader to gain an understanding of the Department's financial activities have been included.

Profile of the Department

MoDOT works to provide a world-class transportation experience that delights our customers and promotes a prosperous Missouri. The Department is responsible for designing, building, operating and maintaining Missouri's transportation system - the seventh largest in the United States with approximately 33,895 miles of highway and 10,376 bridges. The Department also works to improve airports, river ports, railroads, public transit systems and pedestrian and bicycle travel.

In 1979, voters of the State passed a constitutional amendment merging the State Highway Department with the Department of Transportation, becoming the Missouri Highways and Transportation Department. In 1996, the Missouri Highways and Transportation Department became the Missouri Department of Transportation by legislative action. The Missouri Highways and Transportation Commission (MHTC or Commission), a six-member bipartisan board, governs the Department. Commission members are appointed by the governor and are confirmed by the Missouri Senate. No more than three commission members may be of the same political party. The Commission appoints the MoDOT director.

The Commission is responsible for the annual update of the Department's five-year Statewide Transportation Improvement Program (STIP) and awards contracts for highway projects. The Commission has authority to issue bonds secured by highway revenues.

As shown on the organizational chart following this letter, the Department is organized by divisions and districts. The divisions represent a variety of disciplines and provide direction and oversight of the activities in the districts and support to the Department. These activities include the design and construction of highways and facilities, transportation planning including the five-year STIP, maintenance and safety of the existing highway system and activities related to other modes of transportation, such as aviation, railways, river ports, freight, transit, and bicycle and pedestrian facilities. The districts represent seven geographical regions of the state of Missouri and are responsible for providing projects and services to the citizens of Missouri.

Budgetary Controls

The Commission approves the appropriation request submitted to the State Legislature for all governmental funds reported by MoDOT with the exception of those funds appropriated to other state agencies and to the Office of Administration for certain fringe benefits. The request is developed with input from the districts and divisions. The legal authority of the State Road Fund budget and any related amendments is the Commission. The legal authority for all other funds rests with the Legislature who takes action on appropriation requests between January and May for the subsequent year's appropriations.

The Department relies on the statewide accounting system to control total expenditures by appropriation utilizing features in the system to ensure budgetary compliance. An additional budgetary control in place includes management using reports to monitor spending by program, division or appropriation.

Missouri Economy

Missouri's transportation system impacts the state's economy. Missouri businesses depend on our roadways, rail, waterways and airports to move their products and services both nationally and globally. An efficient, well-connected transportation system helps attract new businesses to our communities and helps existing businesses maintain a competitive edge with easy customer access, minimal shipping costs and strong links to a diverse workforce. The Department believes investments in transportation should create jobs and provide opportunities for advancement to all Missouri citizens.

Missouri employment continues to show slight growth. Per the Bureau of Labor Statistics, United States Department of Labor, in fiscal year 2015, the unemployment rate continued to decline to 5.8 percent in June 2015. This compares to an unemployment rate of 6.5 percent in June 2014. Compared to the national trend, the Missouri unemployment rate declined less than the United States rate and ended 0.5 percentage points higher in June of 2015 than the national rate of 5.3 percent. Employment gains occurred over the previous year in most areas including construction, manufacturing, finance, professional and business services, educational and health services, leisure and hospitality and

government. Personal income in the first quarter of 2015 is continuing to show steady growth at 3.6 percent over the previous year. Consumer confidence increased in fiscal year 2015, but still remains fairly low, which indicates that consumers continue to be cautious about making purchases.

MoDOT contributes to the economy in the areas of job creation, personal income growth and new value added to the economy. Based on the 2015-2019 STIP investment of \$3,468.0 million, an analysis estimates that on average, each year the plan creates 3,946 additional jobs, \$203.1 million in new personal income and \$247.8 million in new value added to the economy. By comparison, the analysis of the 2014-2018 STIP investment of \$4,400.0 million estimates 6,528 jobs, \$309.9 million in new personal income and \$414.5 million in new value added to the economy. The methodology used for the analysis of the 2015-2019 STIP was updated to include higher wage rates, increased labor productivity and fewer large transportation improvement projects. While providing a more accurate estimate of economic return, the overall result is a smaller transportation investment in this STIP supports fewer jobs and has a smaller return for every dollar invested.

The Department's state fuel tax receipts, the second largest source of transportation revenue, increased 1.2 percent in 2015 from 2014; however, the 2015 state fuel tax receipts are 5.0 percent lower than receipts from 2008, the year with the most receipts in the last eight years. Lower fuel prices have equated to people driving more, which in turn uses more fuel. There have been no increases in the motor fuel tax rate since 1996 and it is not indexed to keep pace with inflation. Motor vehicle and driver licensing fees increased 3.0 percent from 2014. Vehicle and driver licensing fees, similar to motor fuel taxes, are not indexed to keep pace with inflation and for most annual registration fees no increases have occurred since 1984. Motor vehicle sales tax receipts increased 6.1 percent from 2014. Overall, state revenues for the Department increased 3.1 percent in 2015 compared to 2014.

Federal funding continues to be uncertain. Congress passed Moving Ahead for Progress in the 21st Century (MAP-21), a two-year \$105.0 billion transportation bill for the nation's transportation projects on June 29, 2012. This two-year act was set to expire September 30, 2014. On July 31, 2014, Congress transferred \$10.8 billion into the Highway Trust Fund and extended MAP-21 until May 31, 2015. In May 2015, Congress passed another two-month extension that expired July 31, 2015. In July 2015, Congress took action to provide \$8.1 billion to the Highway Trust Fund and to extend MAP-21 until October 29, 2015. These short-term fixes will not solve the federal transportation funding issue. Congress will still need to work on a new highway authorization act to secure funding for transportation in the future.

Construction

Missouri's 2016-2020 STIP is primarily maintenance-focused with little room for anything else, but that has not always been the case. In 2004, Missouri voters approved Amendment 3, which redirected motor vehicle sales taxes formerly deposited into the State's General Revenue Fund to the newly created State Road Bond Fund and directed MoDOT to sell bonds and use the proceeds to improve roads and bridges. With that, Missouri's major roads went from 47.0 percent in good condition to 89.2 percent as of December 2014. Minor, less traveled roads have been maintained at 78.3 percent in good condition as of December 2014, a significant improvement from December 2012 when only 69.3 percent were in good condition. The condition of Missouri's bridges steadily improved during the five years of the Safe and Sound Bridge Improvement Program, a program to replace or rehabilitate 802 bridges throughout the state; however, that trend has reversed as the number of bridges in good condition has been declining since fiscal year 2012.

An unprecedented amount of work was also made possible when the President signed into law the American Recovery and Reinvestment Act (ARRA) in February 2009. This \$787.0 billion act was intended to stimulate the economy and provide jobs to the American public. As of September 30, 2013, the Department expended \$639.2 million and completed its projects associated with Missouri's highway infrastructure, on-the-job training, ferry boat and forest highway projects. In addition, the Department has also expended \$67.7 million for other transportation modes, such as rail and transit. Only ARRA rail projects are still in progress.

But these opportunities are over. ARRA funds are gone and the bond proceeds have been used to make improvements Missourians wanted. Now the redirected vehicle sales taxes that made it possible are being used to pay off that debt, just like the mortgage on a home.

The I-64 Daniel Boone Bridge design-build project costing \$125.0 million was awarded in July 2012. The project is needed to maintain the existing system by constructing a new bridge over the Missouri River between St. Louis and St. Charles counties to replace an aging structure. The bridge being replaced was built in the mid-1930s and was not designed for interstate level traffic. The project is expected to be completed in the summer of 2016.

In February 2014, construction began on the Manchester Bridge project, located in Jackson County, to replace the I-70 bridges over Manchester Trafficway, the Blue River and an adjacent rail yard. Built in the late 1950s, the current I-70 bridges are among the earliest pieces of interstate construction in western Missouri and need frequent maintenance and extensive repairs. The project is scheduled to conclude in December 2015.

The Department, St. Charles County and local municipalities came together to allocate \$119.4 million toward extending Route 364 (Page Phase 3). The project included building an improved connection from Page Avenue and Mid Rivers Mall Drive to I-64/U.S. Route 40/61 at Route N. The design-build contracting process was approved in February 2013 and the project was completely opened to traffic in November 2014.

In July 2014, a project was awarded and construction began to replace the U.S. Route 69 Bridges over the Missouri River between Platte County, Missouri and Wyandotte County, Kansas. The project cost of \$79.0 million will be split with the state of Kansas. The southbound U.S. Route 69 Bridge, commonly referred to as the Fairfax Bridge, was built in 1933. The northbound U.S. Route 69 Bridge, commonly referred to as the Platte Purchase Bridge, was built in 1957. Both were built to accommodate the type, size, and weight of vehicles at the time they were constructed, and were not designed for the heavy loads and high volume of truck traffic typically found today within the heavy industrial zone where these bridges are located. The new bridges will be opened for traffic in December 2016.

MoDOT began construction in September 2014 on a project that will convert U.S. Route 60 to a freeway between Greene County Farm Road 241 west of Rogersville and Chicory Road east of Rogersville. This \$35.0 million project was awarded in June 2014 and will be completed by December 2016.

The Columbia I-70 Bridges project costs \$18.0 million and will replace three bridges over local streets in Columbia. The I-70 bridges cross over Business Loop 70/West Boulevard, Garth Avenue and MO Route 763/Rangeline Street. The project was awarded in June 2015, with construction starting in August 2015. The project is expected to be complete in the fall of 2016.

Long-term Financial Planning

The Department's 2016 budget, \$2.1 billion, approved by the Commission in June, is approximately \$127.8 million less than the Department's 2015 budget, with amendments. With the completion of projects built with Amendment 3 bond proceeds and ARRA funds, the construction program over the next several years will be smaller than previous years. Program funds will focus on taking care of the existing transportation system as revenues are insufficient to do more.

The Department projects its annual construction program, which only a few years ago was \$1.3 billion, will be just under \$600.0 million in 2016. The baseline annual amount of contractor awards required to keep the statewide system of roads and bridges in the condition it is today is estimated to be \$485.0 million. Because revenues from the three major state revenue sources were higher than projected, contractor awards for fiscal year 2017 will be higher than published in the 2016-2020 STIP. Even with the higher contractor awards, the funds available will be focused on maintaining the current transportation system.

The Commission approved the Bolder Five-Year Direction, a cost savings initiative within MoDOT, in June 2011. As of March 1, 2015, the completion date, the Department realized \$605.0 million in savings. The savings have been invested in minor road improvements and in the STIP. In addition to monetary savings, the Department continues to explore ways to do things differently to maximize the limited resources the Department has available.

Other Information

The Department is required to undergo an annual Single Audit in accordance with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations." The Department's information will be included in the state of Missouri's Single Audit for the fiscal year ended June 30, 2015.

Acknowledgements

This CAFR is published to demonstrate our intention to maintain the highest quality standards of public accountability. This report could not have been published without the dedicated efforts of MoDOT employees. The commitment and professionalism of the Financial Services Division staff contributed significantly to the timely preparation of the 2015 report.

Respectfully submitted,

A handwritten signature in purple ink that reads "Roberta Broeker". The signature is fluid and cursive, with the first name "Roberta" and last name "Broeker" clearly distinguishable.

Independent Auditors' Report

Missouri Highways and Transportation Commission
Missouri Department of Transportation
Jefferson City, Missouri

Report On The Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Missouri Department of Transportation (the Department) as of and for the years ended June 30, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements as listed in the table of contents.

Management's Responsibility For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Missouri Department of Transportation as of June 30, 2015 and 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Financial Reporting Entity

As discussed in Note 1, the financial statements of the Missouri Department of Transportation are intended to present the financial position, the changes in financial position and cash flows, where applicable, of only that portion of the governmental activities, each major fund and the aggregate remaining fund information of the state of Missouri that is attributable to the transactions of the Department. They do not purport to, and do not, present fairly the financial position of the state of Missouri as of June 30, 2015 and 2014, and the changes in its financial position and cash flows, where applicable, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 13 to the financial statements, in 2015 the Department adopted GASB Statement 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 22 through 33, the Budgetary Comparison Schedules on pages 84 through 86, the Schedule of Proportionate Share of Net Pension Liability and the Schedule of Pension Contributions on page 87, and the Schedule of Funding Progress – Other Post-Employment Benefits on page 88 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Department's basic financial statements. The combining financial statements and the budgetary comparison schedules and reconciliations – debt service and nonmajor governmental funds, the introductory and statistical sections listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required By *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 28, 2015 on our consideration of the Department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Department's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Management's Discussion and Analysis

The following section of our annual financial report presents our discussion and analysis of the Department's (or MoDOT's) financial performance during the year. It is intended to assist you in understanding how the various statements relate to each other and provide an objective and easily readable analysis of the Department's financial activities based on currently known facts, decisions and conditions. We encourage readers to consider the information presented here in conjunction with the letter of transmittal included in the introductory section and information presented in the Department's financial statements and notes, which follow this section. Please note the beginning net position for fiscal year 2015 was restated for the implementation of Governmental Accounting Standards Board (GASB) 68, *Accounting and Financial Reporting for Pensions*. GASB 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, was implemented as a clarification of GASB 68. The notes to the financial statements provide more detail.

FINANCIAL HIGHLIGHTS

Government-wide Highlights

- The net position of the Department at the close of the fiscal year was \$26.6 billion compared to \$27.4 billion at 2014. The department's net position decreased 3.0 percent compared to an increase of 1.7 percent in fiscal year 2014 from 2013. Of the fiscal year 2015 amount, \$0.5 billion is a negative unrestricted amount which is offset by the department's investment in capital assets. The inclusion of the pension liability in fiscal year 2015 is the reason for the negative unrestricted amount. The fiscal year 2014 net position had \$0.8 billion restricted for highways and transportation uses.
- The majority of the Department's assets is capital assets, which totaled \$29.7 billion and \$29.5 billion for fiscal years 2015 and 2014, respectively. This represents a 0.8 percent increase compared to a 1.3 percent increase in 2014 from 2013. The decrease in capital assets is less infrastructure added as the Department's focus shifts to taking care of the existing system.
- Non-current liabilities of the Department total \$4.1 billion at June 30, 2015 compared to \$3.2 billion at 2014, a \$0.9 billion increase. The increase in noncurrent liabilities is the additional of the net pension liability. Fiscal year 2014 compared to 2013 had a \$0.1 billion decrease.

Fund Highlights

- As of the close of the fiscal year, the Department's *governmental funds* reported combined ending fund balances of \$1.0 billion, compared to \$1.1 billion in 2014, a decrease of \$0.1 billion. From fiscal year 2014 to 2013, a decrease of \$0.1 billion also occurred.
- Approximately 96.1 percent of the Department's governmental fund balances, or \$1.0 billion, are available for spending at the Department's discretion in accordance with the purpose of the funds, compared to 97.6 percent, or \$1.1 billion, in 2014. The nonspendable fund balance related to inventories increased from \$29.1 million in fiscal year 2014 to \$37.6 million in fiscal year 2015, because the Department prepared for maintenance activities by purchasing inventory and delays occurred due to wet weather. At June 30, 2015, there was not an unassigned fund balance compared to \$1.6 million unassigned negative fund balance at June 30, 2014. The unassigned (negative) fund balance was due to the timing of receipts, while the corresponding expenditures were recorded as incurred.
- The *proprietary funds* reported combined net position of \$34.0 million at the close of the fiscal year, compared to \$36.5 million in 2014. Restricted investments at the close of both years totaled \$0.3 million, resulting in unrestricted net position of \$33.7 million and \$36.2 million for fiscal years 2015 and 2014, respectively.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to the Department's basic financial statements, which include three components: (1) **government-wide financial statements**, (2) **fund financial statements** and (3) **notes to the financial statements**. This section also contains required supplementary information and combining financial statements.

Government-wide Financial Statements (Reporting the Department as a Whole)

The government-wide financial statements are designed to provide readers an overall picture of the Department's financial position. The statements provide both current and noncurrent information about the Department's financial status, which assist the reader in assessing the Department's economic condition at the end of the fiscal year. These statements are prepared using the economic resources measurement focus and the accrual basis of accounting, which are similar to methods followed by most private-sector businesses. These statements take into account all of the current year's revenues and expenses, even if the related cash has not been received or paid. The government-wide financial statements include two statements: the Statements of Net Position and the Statements of Activities. These statements take a much longer view of the Department's finances than do the fund-level statements.

- The *Statements of Net Position* combine and consolidate all of the Department's assets and liabilities, except fiduciary funds, with the difference between the two reported as "net position". This includes current financial resources, capital assets and long-term obligations. Over time, increases or decreases in net position indicate whether the Department's financial health is improving or deteriorating, respectively. Fiduciary fund resources are not reported as they are not available to support Department programs.
- The *Statements of Activities* present information showing how the Department's net assets changed during the fiscal year. The Department reports changes in net position as soon as the event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in the statements for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The Department's basic services are reported as governmental activities, including administration; fleet, facilities and information systems; maintenance; construction; other modal systems; and other activities. Taxes, fees and federal grants finance most of these activities.

This report includes two schedules that reconcile the amounts reported on the governmental fund financial statements (prepared using the modified accrual basis of accounting and current financial resources measurement focus) with the governmental activities on the appropriate government-wide statements (prepared using the accrual basis of accounting and economic resources measurement focus). The following summarizes the impact of utilizing GASB Statement 34 reporting:

- Other long-term assets that are not available to pay for current period expenditures are not reported on governmental fund statements.
- Internal service fund activities are reported as governmental activities on the government-wide statements, but reported separately as proprietary funds in the fund financial statements.
- Unless currently due and payable, long-term liabilities, such as capital lease obligations, compensated absences and others, appear as liabilities only on the government-wide statements.
- Capital outlay spending results in capital assets on the government-wide statements, but is reported as expenditures on the governmental fund statements.
- Bond, note and capital lease issuances result in liabilities on the government-wide statements, but are recorded as other financing sources on the governmental fund statements.
- Certain other outlays represent either increases or decreases in liabilities on the government-wide statements, but are reported as expenditures on the governmental fund statements.

Deferred inflows and outflows of resources are related to transactions that have occurred but are not yet recognized in the financial statements as revenues or expenditures.

Fund Financial Statements (Reporting the Department's Major Funds)

The fund financial statements provide detailed information about the major individual funds. A fund is an accounting entity with a self-balancing set of accounts the Department uses to keep track of specific sources of funding and spending for a particular purpose. The Department, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal and contractual requirements. All of the funds of the Department can be divided into three categories: governmental funds, proprietary funds and fiduciary funds. It is important to note these fund categories use different accounting approaches and should be interpreted differently.

- **Governmental Funds** Most of the basic services provided by the Department are reported in governmental funds. Reporting focuses on how financial resources flow in and out of the funds, and amounts remaining at year-end for future spending. Governmental funds are accounted for using the modified accrual basis of accounting, which measures cash and other assets that can be readily converted to cash. These statements provide a detailed short-term view of the Department's general governmental operations and the basic services it provides. This information should help determine whether there are more or less current financial resources available for the Department's current needs. Because the focus of governmental fund financial statements is narrower than that of government-wide financial statements, it is useful to compare these statements with the governmental activities information presented in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's short-term financing decisions. Both the governmental fund Balance Sheets and the governmental fund Statements of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate a comparison between governmental funds and governmental activities in the government-wide statements. These reconciliations are presented on the page immediately following the governmental fund financial statements.

The Department reports three major governmental funds. Information is presented separately in the governmental funds Balance Sheets and the governmental funds Statements of Revenues, Expenditures and Changes in Fund Balances for the State Highways and Transportation Department Fund (Highway Fund), the State Road Fund (Road Fund) and the State Road Bond Fund. The Highway and Road funds are special revenue funds used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The State Road Bond Fund is a debt service fund, which was constitutionally established to receive monies from the state's motor vehicle sales tax and is used to fund the repayment of bonds. Data from other funds are combined into a single, aggregated presentation as nonmajor governmental funds. Examples of the nonmajor funds include statutorily established funds for multimodal activities. Individual fund data for each of these nonmajor governmental funds is provided within combining financial statements following the Notes to the Financial Statements.

- **Proprietary Funds** When the Department charges customers for some of the services it provides, whether to outside customers, other agencies, or to units within the Department, these funds are reported in proprietary funds. These funds are used to show activities that operate more like those found in the private sector and utilize full accrual accounting, like the government-wide statements.

The Department has two internal service funds: Missouri Highways and Transportation Commission (MHTC) Self Insurance Plan and the MoDOT and Missouri State Highway Patrol (MSHP) Medical and Life Insurance Plan. Individual data for each of these funds is provided within the combining financial statements following the Notes to the Financial Statements. Internal service fund activities are reported as governmental activities on the government-wide statements with eliminations made to remove the effect of the interfund activity.

- **Fiduciary Funds** Fiduciary funds are used to account for resources held for the benefit of parties outside the Department. These funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the Department's activities. These agency funds account for monies held on behalf of various political subdivisions and other interested parties.

Notes to the Financial Statements

The *Notes to the Financial Statements* provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements, which discuss particular accounts in more detail, can be found immediately following the fiduciary funds Statements of Assets and Liabilities.

Required Supplementary Information

A section of *Required Supplementary Information* follows the Notes to the Financial Statements. This section includes budgetary comparisons and a separate reconciliation between the fund balances for budgetary purposes and the fund balances as presented for the major special revenue funds in the governmental fund financial statements. The Budgetary Comparison has been provided for the Department's two major special revenue funds to demonstrate compliance with this budget. The legal authority for approval of the Department's budget and amendments for all funds, except the Road Fund, rests with the State Legislature. The authority for the Road Fund rests with the Commission.

Also included is a schedule that reports information about the funding progress of the MoDOT and MSHP Medical and Life Insurance Plan.

Combining Statements

The *Combining Statements* section presents statements reporting individual and total columns for nonmajor governmental funds, proprietary (internal service) funds and fiduciary (agency) funds. This information is presented only in summary form in the basic financial statements.

Budgetary Comparison Schedules and Reconciliations

The *Budgetary Comparison Schedules and Reconciliations* section includes budgetary comparisons and reconciliations between the fund balances for budgetary purposes and the fund balances as presented for the major debt service and nonmajor special revenue funds in the governmental fund financial statements. The legal authority for approval of these budgets and amendments rests with the State Legislature.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statements of Net Position

As noted earlier, net position may serve over time as a useful indicator of the Department's financial health. The following tables, graphs and analyses discuss the financial position and changes in financial position for the Department as a whole as of and for the fiscal years ended June 30, 2015, 2014 and 2013. The Department's combined net position decreased \$818.1 million over the course of this fiscal year's operations, a decrease of 3.0 percent. This compares to an increase of \$465.0 million in 2014 from 2013. Accounting standards required the total amount of pension obligations be added to liabilities this year to show a better picture of the fiscal position of the entity. The pension obligation of \$1.1 billion caused the decrease in net position.

The following table reflects the condensed financial information derived from the Statements of Net Position as of June 30, 2015, 2014 and 2013:

(Amounts in millions)				Percent Change 2015-2014
	<u>2015</u>	<u>2014</u>	<u>2013</u>	
Assets				
Current and other assets	\$ 1,264	\$ 1,448	\$ 1,514	(12.7)%
Capital assets, net	<u>29,712</u>	<u>29,477</u>	<u>29,093</u>	0.8
Total assets	<u>30,976</u>	<u>30,925</u>	<u>30,607</u>	0.2
Deferred Outflows of Resources				
Deferred bond refunding	<u>204</u>	<u>91</u>	<u>14</u>	124.2
Total deferred outflows of resources	<u>204</u>	<u>91</u>	<u>14</u>	124.2
Liabilities				
Current liabilities	399	428	414	(6.8)
Noncurrent liabilities	<u>4,075</u>	<u>3,170</u>	<u>3,254</u>	28.5
Total liabilities	<u>4,474</u>	<u>3,598</u>	<u>3,668</u>	24.4
Deferred Inflows of Resources				
Pension obligations	<u>106</u>	<u>---</u>	<u>---</u>	100.0
Total deferred inflows of resources	<u>106</u>	<u>---</u>	<u>---</u>	100.0
Net Position				
Net Investment in capital assets	27,075	26,636	26,077	1.6
Restricted (internal service fund requirements and highways and transportation uses)	---	782	876	(100.0)
Unrestricted	<u>(475)</u>	<u>---</u>	<u>---</u>	(100.0)
Total net position	<u>\$26,600</u>	<u>\$27,418</u>	<u>\$26,953</u>	(3.0) %

The total assets of the Department were \$31.0 billion with deferred outflows of \$204.0 million, while total liabilities were \$4.5 billion, with deferred inflows of \$106.0 million, resulting in a net position of \$26.6 billion. Total assets increased \$51.9 million in 2015, compared to a \$317.2 million increase in 2014 from 2013. Total liabilities increased \$876.5 million in 2015, compared to a \$70.9 million decrease in 2014 from 2013. The addition of the pension obligation has a significant effect on many of the areas on the Statements of Net Position. Deferred outflows of resources, total liabilities and deferred inflows of resources increased while the total net position decreased. The largest portion of the department's net position, \$27.1 billion, is the investment in capital assets (i.e., land, buildings, equipment, infrastructure and other) less any related debt outstanding needed to acquire or construct the asset. The Department uses capital assets to provide services to citizens; consequently, these assets are not available for future spending. The negative unrestricted amount is the net amount of assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the net investment of capital assets. Available cash balances, included in current and other net assets, are used to pay debts and liabilities.

Statements of Activities

The following condensed financial information was derived from the government-wide Statements of Activities and reflects how the Department's net position changed during the year, compared to the prior years. The information is for the fiscal years ended June 30, 2015, 2014 and 2013:

(Amounts in millions)				Percent Change 2015-2014
	2015	2014	2013	
Revenues				
Program revenues				
Charges for services	\$ 385	\$ 413	\$ 428	(6.8)%
American Recovery and Reinvestment Act	15	29	50	(48.3)
Operating grants and contributions – federal government	83	88	88	(5.7)
Capital grants and contributions – federal government	764	839	892	(8.9)
General revenues				
Taxes	828	802	791	3.2
Investment earnings (loss)	11	14	(1)	(21.4)
Miscellaneous	(1)	(2)	7	50.0
Total revenues	<u>2,085</u>	<u>2,183</u>	<u>2,255</u>	(4.5)
Expenses				
Program expenses				
Administration	25	33	32	24.2
Fleet, facilities and information systems	30	33	35	(9.1)
Maintenance	329	420	398	(21.7)
Construction	275	194	223	41.8
Multimodal operations	84	89	89	(5.6)
Interest on debt	113	130	136	(13.1)
Other state agencies	227	209	200	8.6
Self insurance (workers' compensation and liability)	21	19	15	10.5
Medical and life insurance	106	97	95	9.3
Pension	92	---	---	100.0
Other post-employment benefits	50	51	75	(2.0)
Depreciation on assets	457	443	414	3.2
Total expenses	<u>1,809</u>	<u>1,718</u>	<u>1,712</u>	5.3
Changes in net position	<u>276</u>	<u>465</u>	<u>543</u>	(40.6)
Net position, beginning of year, as previously reported	27,418	26,953	26,410	1.7
Restatement of net position, net pension liability	<u>(1,094)</u>	<u>---</u>	<u>---</u>	(100.0)
Net position, beginning of year, as restated	<u>26,324</u>	<u>26,953</u>	<u>26,410</u>	(2.3)
Net position, end of year	<u>\$26,600</u>	<u>\$27,418</u>	<u>\$26,953</u>	(3.0) %

Governmental Activities

The following chart depicts revenues of the governmental activities, as a percent, for the fiscal years ended June 30, 2015 and 2014:

Revenues for the year decreased \$98.4 million compared to a decrease of \$71.3 million in 2014 from 2013. Federal grants revenue, including operating grants and contributions and capital grants and contributions, decreased \$95.1 million from fiscal year 2014. The decrease is the timing and age of advance construction conversions. Advance construction is a Federal Highway Administration financing technique that allows states to initiate a project using non-federal funds and claim reimbursement on the project at a later date, when additional federal funds are available. Projects converted in fiscal year 2015 had fewer expenditures incurred, which equated to less reimbursement being received when they were converted. In addition, because the federal fiscal year is different than the state fiscal year, variances can occur based on when projects are converted. ARRA federal revenue continues to decrease as the program ends and only a few rail projects are still in progress. The following three revenue sources provided \$2.0 billion, or 94.8 percent, of the Department's revenues:

- Charges for services, including licenses, fees, permits and cost reimbursements: \$385.6 million
- Sales and fuel taxes: \$828.5 million
- Federal Highway Administration capital grants: \$764.0 million

In 2014, these same revenue sources provided \$2.1 billion, or 94.1 percent, of the Department's revenues.

As other revenue sources decline, revenues derived from taxes become a larger portion of the revenue for the department. Taxes overall increased 3.2 percent with sales tax revenues increasing more than 7.6 percent from fiscal year 2015 to 2014. Despite the increases in taxes, overall, revenues decreased. The primary component of the decrease in revenues is cost reimbursements received from local entities for cost share projects, which reflects the suspension of the cost share program.

The following chart depicts expenses of the governmental activities for the fiscal years ended June 30, 2015 and 2014:

Expenses for the year increased \$91.2 million, or 5.3 percent. The overall increase in expenses is the addition of pension expense as well as increased expenses for construction and other state agencies, the Patrol and the Department of Revenue.

The Department's expenses for construction and maintenance of the state's highway system totaled \$604.0 million and \$614.0 million in 2015 and 2014, respectively. This represents 33.4 percent and 35.8 percent of the total expenses for 2015 and 2014, respectively.

FUND FINANCIAL ANALYSIS

As previously mentioned, the Department uses fund accounting to ensure and demonstrate compliance with budgetary and legal requirements. The following is a brief discussion of highlights from the fund financial statements. The purpose of the Department's governmental fund financial statements is to provide information on near-term inflows, outflows and balances of spendable resources.

Governmental Funds

At the end of the fiscal year, the fund balances of the governmental funds totaled \$1.0 billion, a decrease of \$161.7 million from the previous year. This compares to a decrease of \$71.5 million in 2014 from 2013. Revenues from the federal government decreased \$84.3 million from 2014. The decrease in federal government revenue is the timing and age of advance construction conversions. Advance construction is a Federal Highway Administration financing technique that allows states to initiate a project using non-federal funds and claim reimbursement on the project at a later date, when additional federal funds are available. Projects converted in fiscal year 2015 had fewer expenditures incurred, which equated to less reimbursements being received when they were converted. In addition, because the federal fiscal year is different than the state fiscal year, variances can occur based on when the projects are converted. The Department spent \$31.9 million less in 2015. This change is a combination of decreases in maintenance, \$16.3 million; capital outlay, \$136.1 million; debt service, \$10.4 million; and multimodal operations, \$4.0 million; a combination of increases from administration, \$2.2 million; fleet, facilities and information systems, \$3.1 million; construction, \$111.7 million; and other state agencies, \$17.9 million. Other financing sources decreased 63.6 percent because the Commission issued refunding bonds in fiscal year 2014 and no bonds were issued in fiscal year 2015. In fiscal year 2015, maintenance expenditures decreased in nonmajor funds due to a milder winter with fewer expenditures related to snow and ice expenditures and lower fuel prices when compared to fiscal year 2014.

State Highways and Transportation Department Fund: The Highway Fund was established by statute to receive revenues derived from the use of state highways. The fund pays the costs incurred to collect revenues received and to administer and enforce state motor vehicle laws and traffic regulations. As shown on the Balance Sheets, the fund ended the fiscal year with assets of \$106.8 million, liabilities of \$9.8 million, deferred inflows of resources \$2.4 million and a restricted fund balance of \$94.6 million. The Constitution requires the balance of funds remaining after other state agency expenditures be transferred to the Road Fund.

As shown on the Statements of Revenues, Expenditures and Changes in Fund Balances of the governmental funds, the Highway Fund had \$687.0 million in revenues, compared to \$685.7 million from 2014, a minimal increase. In 2014, revenues were \$47.8 million less than 2013. The largest portion of the revenue decrease in fiscal year 2014 is attributed to legislation that became effective in fiscal year 2014 that changed all state use tax to a sales tax. A portion of the use tax collected was deposited into the Highway Fund, but sales tax is not.

State Road Fund: The Road Fund was constitutionally established to receive monies from the motor vehicle sales tax, the federal government and other revenues. This is the primary operating fund of the Department and pays to construct, improve and maintain the state highway system and to administer the Commission and the Department. The fund ended the year with assets of \$929.1 million, a decrease of \$171.4 million from 2014. This compares to a decrease in 2014 of \$79.6 million from 2013. Deferred inflows of resources for the fund was \$26.1 million compared to \$22.2 million in fiscal year 2014. Liabilities totaled \$108.9 million, a decrease of \$17.4 million from 2014, and fund balances totaled \$794.2 million, a decrease of \$157.9 million from 2014 compared to a decrease of \$82.2 million in 2014 from 2013.

State Road Bond Fund: The Bond Fund was constitutionally established to receive monies from the state's motor vehicle sales tax. Monies are used to fund the repayment of bonds issued by the Commission. The fund was established in fiscal year 2006 as a debt service fund. At the end of this fiscal year, total assets were \$55.9 million, compared to \$50.1 million in 2014. The American Recovery and Reinvestment Act of 2009 (ARRA) revenue represents the federal government subsidy received for the Build America Bonds issued in 2010. Sales tax revenue increased \$12.7 million. Revenues are used to repay bonds; therefore, expenditures of the Bond Fund were \$164.3 million in 2015 compared to \$143.8 million in 2014.

Proprietary Funds

The Department's internal service funds consist of the MHTC Self Insurance Fund (workers' compensation, fleet liability and general liability) and the MoDOT and MSHP Medical and Life Insurance Plan. The self insurance fund receives premiums from the Department for fleet and general liability claims and from the Department, MSHP and MoDOT and Patrol Employees' Retirement System (MPERS) for workers' compensation claims. The Department, MSHP, MPERS and employees of those agencies pay premiums to the medical and life insurance fund.

As shown on the Statements of Net Position – Proprietary Funds, total assets decreased \$3.9 million in 2015 compared to an increase of \$3.7 million in 2014. Total current liabilities of the proprietary funds at 2015 were \$43.4 million, a decrease of \$2.0 million from 2014. In 2014, total current liabilities of the proprietary funds increased \$2.4 million from 2013. Total pending self insurance claims and incurred but not reported claims increased \$2.1 million compared to a \$2.2 million decrease in 2014 from 2013.

Total net position of the internal service funds decreased \$2.6 million at the end of the current fiscal year to \$34.0 million, compared to an increase of \$3.6 million in 2014 from 2013. Highway worker's compensation and general liability expenses increased \$2.4 million while nonoperating revenues had a minimal decrease of \$78.0 thousand due to a change in the market value of investments.

The largest operating expenses of the proprietary funds, medical and prescription drug benefits, totaled \$114.0 million compared to \$104.9 million in 2014. This accounts for 76.6 percent of the total operating expenses, compared to 76.1 percent in 2014. This \$9.1 million increase compares to a \$2.0 million increase in 2014 from 2013. The net income of the Self Insurance fund was \$4.0 million in fiscal year 2015 compared to \$4.9 million in fiscal year 2014. The change in net position of the medical and life insurance plan was a negative \$6.6 million in fiscal year 2015 compared to a negative change in net position of \$1.3 million in fiscal year 2014. The increase in negative net position is the net effect of an operating loss of \$7.2 million and nonoperating revenue of \$0.6 million. The operating loss can be attributed to an increase in dollar amount of medical and prescription drug claims as well as the change in incurred but not reported claims.

Fiduciary Funds

The Department's agency funds are used to account for monies held on behalf of various political subdivisions and other interested parties. These funds act as clearing accounts and thus do not have a net position.

SIGNIFICANT EVENTS FOR THE YEAR ENDED JUNE 30, 2015

The I-64 Daniel Boone Bridge Design-Build project costing \$125.0 million was awarded in July 2012. The project is needed to maintain the existing system by constructing a new bridge over the Missouri River between St. Louis and St. Charles counties to replace an aging structure. The bridge being replaced was built in the mid-1930s and was not designed for interstate level traffic. The project is expected to be completed in the summer of 2016.

The Department, St. Charles County and the local municipalities partnered together to extend Route 364 in St. Charles County (Page Phase 3), a \$119.4 million project. The project included building an improved connection from Page Avenue and Mid Rivers Mall Drive to I-64/US Route 40/61 at Route N. The design-build contracting process was approved in February 2013 and the project was completely opened to traffic in November 2014.

In February of 2014, construction began on the Manchester Bridge project, located in Jackson County, to replace the I-70 bridges over Manchester Trafficway, the Blue River and an adjacent rail yard. This project is a “take care of the system” type project. Built in the late 1950s, the current I-70 bridges are among the earliest pieces of interstate construction in western Missouri and need frequent maintenance and extensive repairs. The project is scheduled to conclude in December 2015.

In July 2014, a project was awarded and construction began to replace the U.S. 69 Bridges over the Missouri River between Platte County, Missouri and Wyandotte County, Kansas. The project cost of \$79.0 million will be split with the state of Kansas. The southbound U.S. Route 69 Bridge, commonly referred to as the Fairfax Bridge, was built in 1933. The northbound U.S. Route 69 Bridge, commonly referred to as the Platte Purchase Bridge was built in 1957. Both were built to accommodate the type, size and weight of vehicles at the time they were constructed, and were not designed for the heavy loads and high volume of truck traffic typically found today within the heavy industrial zone where these bridges are located. The new bridges will open to traffic in December 2016.

The Department began construction in September 2014 on a project that will convert U.S. Route 60 to a freeway between Greene County Farm Road 241 west of Rogersville and Chicory Road east of Rogersville. This \$35.0 million project was awarded in June 2014 and will be completed by December 2016.

The Columbia Interstate 70 (I-70) Bridges project costs \$18.0 million and will replace three bridges over local streets in Columbia. The I-70 bridges cross over Business Loop 70/West Boulevard, Garth Avenue and MO Route 763/Rangeline Street. The project was awarded in June 2015, with construction starting in August 2015. The project is expected to be complete in the fall of 2016.

Additional federal revenues became available to all states when the President signed ARRA into law. As of September 30, 2013, the Department expended \$639.2 million and completed its projects associated with Missouri's highway infrastructure, on-the-job training, ferry boat and forest highway projects. The Department has also expended \$67.7 million for other transportation modes, such as rail and transit. Only ARRA rail projects are still in progress.

While construction project bid amounts and subsequent construction awards were slightly higher than the budgeted amount in fiscal year 2014, in fiscal year 2015, the construction award amount was once again less than the budgeted amount as it was in years prior to fiscal year 2014. The Department has successfully used a variety of innovations, which focus on getting the most value for each tax dollar, to minimize the impacts of rising costs. These innovations include:

- practical design, governed by three ground rules – safety, communication and quality – delivers “good” projects everywhere, instead of “perfect” projects somewhere;
- value engineering, a systematic process to review and provide recommendations to improve value while addressing the project's purpose and need;
- alternate bidding of materials on specific projects;
- alternate technical concepts allowing the bidder to propose design changes with bid submittal; and
- packaging of bids to increase competition among bidders.

The Department is recognized nationally by other departments of transportation for its performance management system and practical design efforts. In fact, the Federal Highway Administration acknowledged the Department's performance management system as a noteworthy practice because it achieves accountability and transparency, aligns performance measures and strategic goals and is an outcome-based performance management tool.

During the fiscal year 2015 legislative session, the legislature considered legislation that would increase the motor fuel tax. The original bill that was filed would have increased motor fuel tax by two cents each year for three years and then would have indexed the rate to the consumer price index. The legislature through the amendment process had several different versions with reduced increases. Although the legislation was discussed at length, ultimately nothing was passed.

CAPITAL ASSETS AND LONG-TERM OBLIGATION ADMINISTRATION

Capital Assets

The Department's investment in capital assets for its governmental activities as of June 30, 2015, totals \$54.0 billion, with accumulated depreciation of \$24.3 billion and a net value of \$29.7 billion. The net value represents an increase of \$235.7 million from fiscal year 2014, compared to an increase of \$383.3 million in 2014 from 2013. These assets are summarized in the table below. Additional information about the Department's capital assets is presented in the Notes to the Financial Statements.

(Amounts in millions)				Percent Change 2015-2014
	<u>2015</u>	<u>2014</u>	<u>2013</u>	
Land and permanent easements	\$ 2,633	\$ 2,486	\$ 2,490	5.9 %
Software in progress	4	3	1	33.3
Construction in progress	13	159	167	(91.8)
Infrastructure in progress	1,652	2,170	2,735	(23.9)
Land improvements	16	17	18	(5.9)
Buildings	160	162	156	(1.2)
Software	6	5	6	20.0
Vehicles and equipment	176	174	171	1.1
Temporary easements	1	1	1	---
Infrastructure	<u>25,051</u>	<u>24,300</u>	<u>23,348</u>	3.1
Total	<u>\$29,712</u>	<u>\$29,477</u>	<u>\$29,093</u>	0.8 %

As provided by generally accepted accounting principles (GAAP), the Department records its infrastructure assets at actual or estimated historical cost. Included in infrastructure are 33,895 miles of highways and 10,376 bridges that the Department is responsible for maintaining.

The Statewide Transportation Improvement Program (STIP) sets the specific construction projects the Department will undertake in the next five years. It covers highways and bridges, transit, aviation, rail, waterways, enhancements and other projects. The program, updated annually, is dynamic with adjustments made to project plans during the life of the STIP based on needs and goals of the Department. The Commission approves amendments during the fiscal year as circumstances require.

Long-Term Obligation Administration

The following table presents a summary of the Department's long-term obligations for governmental activities. Additional information about the Department's long-term obligations is presented in the Notes to the Financial Statements.

(Amounts in millions)				Percent Change 2015-2014
	<u>2015</u>	<u>2014</u>	<u>2013</u>	
State road bonds	\$2,510	\$2,679	\$2,918	(6.3)%
Premium on bonds	199	230	84	(13.5)
Advances from other entities	7	23	26	(69.6)
Capital lease obligations	---	---	2	---
Compensated absences	32	33	32	(3.0)
Other liabilities	<u>7</u>	<u>3</u>	<u>5</u>	133.3
Total obligations	2,755	2,968	3,067	(7.2)
Current portion of obligations	<u>202</u>	<u>211</u>	<u>198</u>	(4.3)
Total noncurrent obligations	<u>\$2,553</u>	<u>\$2,757</u>	<u>\$2,869</u>	(7.4)%

The Department's total noncurrent obligations, excluding pending self insurance claims, incurred but unreported claims, pension and other post-employment obligations decreased \$204.0 million from 2014, compared to a decrease of \$112.0 million in 2014 from 2013. At the end of the current fiscal year, state road bonds total \$2.5 billion, or 91.1 percent, of the total obligations. Revenues collected under Article IV, Section 30(a) and (b) of the Missouri Constitution and revenues collected from federal highway reimbursements secure the bonds. These revenues are state highway user fees, including fuel taxes, sales taxes, licenses and fees and federal highway reimbursements. Principal payments are due on various dates through fiscal year 2033.

The advances from other entities are related to construction projects accelerated to meet the needs of the users. Principal payments are due on various dates through fiscal year 2021.

The Department has entered into various capital lease obligations. The lease agreements provide a means of financing office equipment. Capital lease payments mature on various dates through fiscal year 2020.

RECENT EVENTS AND FUTURE BUDGETS

The Department's fiscal year 2016 budget for all funds was approved by the Legislature in May 2015 and signed into law by the Governor in June 2015. The fund level is the legal level of control for the State Road Fund, with approval of the State Road Fund budget by the Commission. The Commission approved the budget for all funds in June 2015, with a total spending plan of \$2.1 billion. The fiscal year 2016 budget is less than the fiscal year 2015 budget, and it is significantly smaller than the fiscal year 2011 budget of \$3.0 billion. Program funds over the next several years will focus on taking care of the existing transportation system as revenues are insufficient to do more.

Federal funding continues to be uncertain. On June 29, 2012, Congress passed Moving Ahead for Progress in the 21st Century (MAP-21), a two-year, \$105.0 billion transportation bill for the nation's transportation projects. This two-year act was set to expire September 30, 2014. On July 31, 2014, Congress transferred \$10.8 billion into the Highway Trust Fund and extended MAP-21 until May 31, 2015. In May 2015, Congress passed another two-month extension that expired July 31, 2015. In July 2015, Congress took action to provide \$8.1 billion to the Highway Trust Fund and to extend MAP-21 until October 29, 2015. These short-term fixes will not solve the federal transportation funding issue. Congress will still need to work on a new highway authorization act to secure funding for transportation in the future.

Annually, the Department prepares a financial forecast that is used to develop its STIP. The financial forecast for the 2016-2020 STIP projected a significant decline in federal revenues because of the inability to match all federal funds, as well as, an ongoing erosion of state revenues. This reduced projected funding led to a significant decline in estimated construction awards. Because revenues from the three major state revenue sources were higher than projected in fiscal year 2015, contractor awards for fiscal year 2017 will be higher than published in the 2016-2020 STIP. Even with the higher contractor awards, the funds available will be focused on maintaining the current transportation system. This means more maintenance-related activities like resurfacing and bridge repair projects rather than expansion projects. The financial forecast will be refreshed in the fall and will determine the projected awards for the upcoming years.

The STIP further illustrates the downturn in MoDOT's construction budget that has been falling since a peak of \$1.3 billion in 2009. In fiscal year 2016, construction awards are projected to be just under \$600.0 million. The baseline amount of contractor awards needed to maintain roads and bridges in the condition they are today is estimated at \$485.0 million. Since 1992, concrete and asphalt costs have outpaced fuel tax revenue two-to-one. With no new funding source available in the near future, the Department will work closely with planning partners and other transportation stakeholders to keep the funding conversation going.

MoDOT has always embraced innovative solutions to get projects done better, faster and cheaper. In June 2015, the Commission reached out to the world to bring solutions for I-70 by creating the "Road to Tomorrow" team. MoDOT's "Road to Tomorrow" team has solicited private industry, innovators, entrepreneurs and the general public for innovative techniques, products and funding streams to rebuild I-70 as the first section of the "highway of the future". Ideas submitted will be screened and vetted.

ECONOMIC CONDITIONS

The current economic environment presents government entities, including state transportation departments, with unusual circumstances and challenges. The past year has seen improvement in the Missouri economy. Consumer sentiment indices have shown a slight increase in consumer confidence, but they remain fairly low as consumers remain cautious with spending. All three major state revenue sources increased in fiscal year 2015. Surprisingly, fuel prices have decreased significantly in the last year and motor fuel taxes collected was up in fiscal year 2015, the first time in several years. A certain amount of uncertainty exists as to the sustainability of the growth from these sources. While the bidding environment for fiscal year 2014 was not favorable, that reversed in fiscal year 2015. During the previous five fiscal years, 2011-2015, 1,722 highway and bridge construction projects estimated at \$3.7 billion were awarded for \$3.5 billion, a 5.74 percent difference.

CONTACTING THE DEPARTMENT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the Missouri Department of Transportation's interested parties, including citizens, taxpayers, customers, investors and creditors, with a general overview of the Department's finances and to demonstrate the Department's accountability for the money it receives. Questions about this report or requests for additional financial information should be addressed to the Missouri Department of Transportation, Financial Services Division, P.O. Box 270, Jefferson City, MO 65102. This report is also included in the Report to the Joint Committee on Transportation Oversight and is available on the Department's website at www.modot.org.

Reconciliation of the Governmental Funds Balance Sheets to the Statements of Net Position

Governmental Funds

June 30, 2015 and 2014

	Total	
	2015	2014
Fund balances – total governmental funds	\$ 969,122,126	\$ 1,130,858,577
Amounts reported for governmental activities in the statements of net position are different because:		
Capital assets, net of accumulated depreciation of \$24,287,711,690 and \$23,890,841,995 in 2015 and 2014, respectively, used in governmental activities are not financial resources and therefore are not reported in the funds.	29,712,359,687	29,476,612,571
Amounts resulting from the difference calculated between the reacquisition price and the net carrying amount of refunded bonds, reported as deferred outflows of resources, are not reported in the funds.	79,024,126	91,218,404
Some of the Department's tax and other revenue will be collected after the 60-day availability period and is deferred in the fund financial statements. However, revenue from this amount is recognized in the government-wide financial statements, net of allowance for uncollectible amounts.	28,677,041	26,318,370
Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included only in the statements of net position.		
Medical and life insurance plan	23,709,834	30,284,966
Self insurance plan	10,242,923	6,224,059
Certain changes in the net pension liability are amortized over time and are not reported in the funds.	18,639,886	---
Certain liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds (current and noncurrent).		
Financing and other obligations	(2,755,196,699)	(2,968,101,001)
Pension obligations	(1,079,844,816)	---
Other post-employment benefits obligations	(380,743,798)	(351,544,236)
Accrued interest payable	(25,715,853)	(23,469,734)
Total net position – governmental activities	\$26,600,274,457	\$27,418,401,976

Reconciliation of the Governmental Funds Statements of Revenues, Expenditures and Changes in Fund Balances to the Statements of Activities

Years Ended June 30, 2015 and 2014

	<u>2015</u>	<u>2014</u>
Net changes in fund balances – total governmental funds	\$(161,736,451)	\$ (71,521,104)
Amounts reported for governmental activities in the statements of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statements of activities, the costs of those assets are allocated over their estimated useful lives and reported as depreciation expense. These are the amounts by which capital outlays (\$713,786,626 and \$849,897,316 for 2015 and 2014, respectively) exceeded depreciation (\$457,406,357 and \$442,733,984 for 2015 and 2014, respectively).	256,380,269	407,163,332
In the statements of activities, only the gains (losses) on the sale of the capital assets are reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the changes in net position differ from the changes in fund balances by the book value of the assets sold.	(20,633,153)	(23,895,409)
Certain revenues in the statements of activities that do not provide current financial resources are not reported as revenues in the governmental funds.	2,358,671	(3,189,940)
Certain changes in the net pension liability, not applicable to the current period, are not reported in the governmental funds.	124,597,572	---
Proceeds from the issuance of long-term debt provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statements of net position. Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statements of net position. These are the net effects of the differences in the treatment of long-term debt obligations and related items.	185,275,929	163,269,002
Some expenses reported in the statements of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		
Compensated absences	1,160,644	(1,012,974)
Interest expense recognition	15,845,447	19,062,856
Claims and judgments	(3,818,115)	1,527,528
Net pension liability	(91,857,655)	---
Other post-employment benefits obligations	(29,199,562)	(29,606,785)
Pollution remediation obligations	---	30,000
Internal service funds are used by management for the medical and life insurance plan and the self insurance plan. The net revenues of internal service funds are reported with governmental activities.		
Medical and life insurance plan	(6,575,132)	(1,336,680)
Self insurance plan	<u>4,018,864</u>	<u>4,893,929</u>
Changes in net position – governmental activities	<u>\$ 275,817,328</u>	<u>\$ 465,383,755</u>

Note 1: Summary of Significant Accounting Policies

The State Highway Department was created in 1913 to act as the agent of the state of Missouri (the state) for public roads. The State Highway Commission was created in 1921 with the passage of the Centennial Road Law and was charged with the administration of the network of connecting state highways, including their location, design, construction and maintenance.

In 1979, Missouri voters passed a constitutional amendment merging the State Highway Department with the Department of Transportation. By statute, the resulting department was named the Missouri Highways and Transportation Department. The constitutional amendment gave the Highways and Transportation Commission (the MHTC or Commission) the authority over all state transportation programs and facilities. The Commission is a bipartisan body of six members appointed by the Governor, with the consent of the Senate, for a term of six years. In 1996, by legislative action, the Missouri Highways and Transportation Department became the Missouri Department of Transportation (MoDOT or Department).

In 2002, several functions from other state agencies were combined with MoDOT. This consolidation was the result of legislative action and the Governor's Executive Order, which created the "One-Stop Shop" for motor carrier services (MCS), railroad operators and overdimension and overweight permitting. In 2003, by Governor's Executive Order, the Division of Highway Safety was transferred from the Department of Public Safety to MoDOT. Legislation passed in 2014 to recognize that 2003 reorganization, transferring all the authority, powers, duties, and functions of the Division of Highway Safety relating to the motorcycle safety program, the driver improvement program, the ignition interlock program, and other state highway safety programs from the Department of Public Safety to the Commission and Department. In 2006, the unit that audits motor carrier operators was transferred to MoDOT from the Department of Revenue. This unit is responsible for auditing International Fuel Tax Agreement tax returns and International Registration Plan applications.

(A) Financial Reporting Entity

Governmental Accounting Standards Board (GASB) Statement 14, *The Financial Reporting Entity*, as amended by GASB Statement 61, establishes the criteria to be used for defining primary governments, component units and related organizations. The Department does not meet the GASB's criteria to be reported as its own primary government or other stand-alone government and is part of the primary government of the state. Like other state agencies, the Department is included in the financial statements of the state. These financial statements report the funds from which MoDOT spends. The nonmajor Multimodal Fund includes only MoDOT appropriations from the state's General fund. The nonmajor MCS Federal Fund is the Motor Carrier Safety Assistance Program.

Certain legally separate organizations are involved in transportation-related projects, such as the Missouri Transportation Finance Corporation (MTFC) and other transportation corporations. Although these organizations cooperate with the Department to meet their objectives and are included in the financial statements of the state as blended or discretely presented component units, they are not part of the Department's defined reporting entity.

The state's Comprehensive Annual Financial Report may be obtained by writing to the state of Missouri, Office of Administration, Division of Accounting, P. O. Box 809, Jefferson City, MO 65102, or may be accessed online at www.oa.mo.gov/acct.

(B) Government-wide and Fund Financial Statements

1. Government-wide Financial Statements

The government-wide statements of net position and statements of activities report the overall financial activities of the Department, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. The financial activities of the Department consist only of governmental activities, which are primarily supported by state taxes and intergovernmental revenues.

The Department administers a single program – transportation. The statements of activities demonstrate the degree to which the direct expenses of that function are offset by program revenues. Direct expenses are those that are clearly identifiable with the function. Program revenues include (a) charges paid by the recipients of goods or services offered by the program and (b) grants and contributions that are restricted to meeting the operational or capital requirements of the program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

2. Fund Financial Statements

The fund financial statements provide information about the Department's funds, including its fiduciary funds. Separate statements for each fund category – governmental, proprietary and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The Department reports the following governmental funds:

State Highways and Transportation Department Fund (Highway Fund) – This special revenue fund was established by Section 226.200, Revised Statutes of Missouri (RSMo.) to receive revenues derived from the use of state highways. This fund pays the costs incurred to collect that revenue, to administer and enforce any state motor vehicle laws or traffic regulations and to provide other related functions.

State Road Fund (Road Fund) – This special revenue fund was constitutionally established to receive monies from the state's motor vehicle sales tax, the federal government, transfers from the Highway Fund and other related revenues. Disbursements consist of costs incurred to construct, improve and maintain the state highway system and for debt service payments.

State Road Bond Fund – This debt service fund was constitutionally established to receive monies from the state's motor vehicle sales tax. Monies are used for the repayment of bonds issued by the Commission to fund the construction and reconstruction of the state highway system or for refunded bonds.

Nonmajor Funds – The remaining funds are considered nonmajor. They are special revenue funds, which account for grants and other resources whose use is restricted for a particular purpose.

The Department reports the following additional fund types:

Internal Service Funds – These proprietary funds account for the financing of services provided to other funds within the Department and other participating agencies on a cost-reimbursement basis. These funds are used to account for medical and life insurance coverage and self insurance activities. Department activity comprises the majority of these funds. These funds are included in the government-wide statements by eliminating off-setting revenues and expenses.

Agency Funds – These fiduciary funds account for monies held on behalf of various political subdivisions and other interested parties and will be used to reimburse the Department for expenditures incurred by the Department on behalf of the previously mentioned parties and to collect and administer registration, license fees and fuel taxes payable to states, excluding Hawaii and Alaska, and Canadian provinces. These funds are not included in the government-wide statements, because they are held on behalf of various political subdivisions and other interested parties, and they are not available for Department use.

(C) Measurement Focus, Basis of Accounting and Financial Statement Presentation

1. Government-wide Financial Statements

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions in which the Department gives (or receives) value without directly receiving (or giving) equal value in exchange include fuel taxes, sales and use taxes, Medicare Part D gap coverage federal subsidies, grants, entitlements and donations. On an accrual basis, revenues from fuel taxes and sales and use taxes are recognized in the fiscal year in which the underlying exchange transaction occurs. Revenues from Medicare Part D gap coverage, based on the current funding levels from the federal government, are recognized in the fiscal year in which the revenue-generating transactions occur. Because potential retroactive adjustments to the federal subsidies are not measurable, revenue impacts are recognized in the fiscal period in which adjustments are made by the federal government. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

2. Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, all revenue sources are recognized when measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Department, consistent with the state of Missouri, considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are recorded as other financing sources.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. The Department's operating revenues and expenses generally result from providing services in connection with the internal service funds' principal ongoing operations. The principal operating revenues are charges for insurance premiums. Operating expenses include self insurance claims, benefits claims, insurance premiums and administrative expenses. Investment income is reported as nonoperating revenue.

When both restricted and unrestricted resources are available for use, it is the Department's policy to use restricted resources first, then unrestricted resources as needed.

(D) Financial Statement Element Attributes

1. Cash and Cash Equivalents and Investments

Cash and cash equivalents include:

- Cash
- Repurchase agreements, which are investments with original maturities of three months or less
- Pooled monies, including pooled investments, with the State Treasurer's Office

Investments are valued at fair value.

2. Inventories

Inventories, primarily consisting of maintenance materials, are valued at cost using the weighted average method. Inventories are recorded in the governmental funds as expenditures when consumed rather than when purchased.

3. Interfund Transactions

The Department reports the following types of interfund transactions:

Interfund services provided and used – This consists of sales and purchases of goods and services between funds for a price approximating their external exchange value. Interfund services provided and used are reported as revenues in seller funds and as expenditures or expenses in purchaser funds. This internal activity is included in the government-wide statements by eliminating off-setting revenues and expenses.

Transfers – This consists of flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

4. Capital Assets

Capital assets, such as land, buildings, equipment and infrastructure assets, are reported at cost (or estimated historical cost) as governmental activities in the government-wide financial statements. Infrastructure assets are those assets that are normally immovable and of value to the citizens of the state of Missouri, such as roads, bridges, streets and sidewalks, drainage systems, lighting systems and similar items. The Department capitalizes assets with an expected useful life of more than one year with a cost greater than \$1,000 for equipment, \$5,000 for software and \$15,000 for buildings and land improvements. No dollar threshold is set for land, easements and infrastructure. Donated capital assets are recorded at their fair value at the date of the donation.

Capital assets utilized in the governmental funds are recorded as expenditures in the governmental fund financial statements. Depreciation expense, including amortization of leased capital and intangible assets, is recorded in the government-wide financial statements.

Capital assets are depreciated or amortized on the straight-line method over the asset's estimated useful life. There is no depreciation recorded for land, permanent easements, software in progress, construction in progress and infrastructure in progress. Generally, estimated useful lives are as follows:

Vehicles, machinery and equipment	1 to 20 years
Buildings and other improvements	10 to 50 years
Infrastructure	7 to 50 years
Software	5 years
Temporary Easements	3 years

5. Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, financial statements may report a separate section for deferred outflows of resources. Deferred outflows of resources consists of the consumption of net position that is applicable to a future reporting period and so will not be recognized as an outflow of resources until then. Deferred outflows of resources related to refunding long-term debt and certain pension contributions are reported in the statements of net position. The deferred bond refunding amount results from the difference in the carrying value of refunded debt and its reacquisition price, and is amortized over the shorter of the life of the refunded or refunding debt. The pension contributions represent contributions made to the plan between the measurement date of the pension obligations and the end of the fiscal year.

In addition to liabilities, financial statements may report a separate section for deferred inflows of resources. Deferred inflows of resources consists of the acquisition of net position that is applicable to a future reporting period and so will not be recognized as inflow of resources until then. Deferred inflows of resources in the fund financial statements are reported as receivables, when the corresponding revenues are unavailable. Deferred inflows of resources includes federal reimbursements, cost reimbursements and other miscellaneous receivables. For the government-wide financial statements, deferred inflows of resources relate to certain changes in pension obligations that are amortized over future periods.

6. Deposits and Unearned Revenue

Deposits consist of amounts held to ensure permit work, such as driveway installations, is completed to MoDOT specifications. Upon approval, the deposits are returned.

Unearned revenue consists of amounts collected in advance of the year in which earned. In the government-wide and governmental funds, local shares of project costs and property sales down-payments are held until work or contract completion. In the internal service funds, employee and employer medical insurance premiums received a month in advance are held for the subsequent month's coverage.

7. Compensated Absences

Under the terms of the Department's personnel policy, Department employees are granted 10 to 14 hours of annual leave per month. Additionally, certain employees can accrue a maximum of 240 hours of compensatory time for unpaid overtime. Employees have accrued annual leave and compensatory time available amounting to \$32,272,194 and \$33,432,838 as of June 30, 2015 and 2014, respectively, recorded in the government-wide financial statements. Because employees are not paid for accumulated sick leave upon retirement or termination, no liability has been recorded for this leave.

8. Bond Premiums, Discounts and Issuance Costs

In the government-wide financial statements, bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums on debt issuances are reported as other financing sources and discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Pollution Remediation Obligations

MoDOT estimates the components of expected pollution remediation activities and determines whether expected outlays for those components should be accrued as a liability and expensed or, if appropriate, capitalized. Pollution remediation obligations are measured at the current cost of future activities and are valued using the expected cash flow method, which measures the liability based on probability-weighted amounts. The determined liabilities could change over time due to changes in costs of goods and services, changes in remediation technology or changes in laws and regulations governing the remediation efforts.

10. Pensions

Pension-related expenses, liabilities, deferred outflows of resources and deferred inflows of resources have been determined on the same basis as they are reported by the MoDOT and Patrol Employees' Retirement System (MPERS). For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

11. Fund Balances

In the fund financial statements, fund balances are displayed as follows:

Nonspendable – This consists of State Road Fund balances of \$37,574,480 and \$29,135,029 at June 30, 2015 and 2014, respectively, representing inventories held.

Unassigned - This consists of a deficit fund balance in the Multimodal Federal Fund of \$1,575,780 as of June 30, 2014. Under the modified accrual basis of accounting, fund payables are recorded as expenditures when incurred. However, due to the timing of receipts, the corresponding federal revenue was deferred, resulting in a negative fund balance.

Restricted – This consists of fund balances that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation. Total restricted fund balances of \$931,547,646 and \$1,103,299,328 at June 30, 2015 and 2014, respectively, were restricted by enabling legislation.

12. Net Position

In the government-wide and proprietary fund financial statements, net position is displayed as follows:

Net Investment in Capital Assets – This consists of capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted – This consists of assets that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation. This also includes unexpended bond or lease proceeds less the related outstanding liability. Total restricted net position at June 30, 2015 and 2014, \$300,000 and \$782,346,219, respectively, were restricted by enabling legislation or by outside parties.

Unrestricted – This consists of the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position. As a result of the inclusion of the net pension liability in fiscal year 2015, the unrestricted net position at June 30, 2015 is a deficit of \$475,195,911.

13. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses or expenditures and other changes in net position or fund balances during the reporting period. Actual results could differ from those estimates.

Note 2: Deposits and Investments

Cash and investments include amounts held by the State Treasurer's Office as required by the state constitution for all state funds of the primary government. Interest income earned on cash and investments in the State Treasury is allocated to the funds based on the respective investment and cash balances. In addition, cash and investments also include funds held in depository banks, as allowed by state statute.

By policy, investments may include linked deposits, certificates of deposit, commercial paper, bankers' acceptances, repurchase agreements and reverse repurchase agreements, U.S. Treasury obligations and federal agency securities. The Department's investments are reported at fair value. While the majority of the Department's investments are pooled in the State Treasury or with the Department of Revenue, a portion is held at banks outside those state agencies. At June 30, 2015 and 2014, the Department's portfolio of non-pooled funds had \$124,160,210 and \$133,365,177, respectively, of uninsured, unregistered investments held in the Commission's or State's name. Also at June 30, 2015 and 2014, the Department had book balances of \$11,639,443 and \$67,188,078, respectively, and bank balances of \$14,033,465 and \$67,959,364, respectively, of repurchase agreements. All repurchase agreements were collateralized by securities held by a financial institution's trust department in the Commission's or State's name.

Interest Rate Risk – The State Treasurer's Office policy states it will minimize the risk that the market value of investments will fall due to changes in general interest rates by maintaining an effective duration of less than 2.5 years and holding at least 25.0 percent of the portfolio's total market value in securities with a maturity of 12 months or less. MoDOT's policy for the investment portfolios of non-pooled funds states they are to be structured so securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. Of the total non-pooled investments, \$123,943,346 is highly sensitive to interest rate changes because the investments are callable or subject to prepayment. The effective maturities are disclosed based on assumptions provided by the Department's investment advisor.

Credit Risk – The State Treasurer's Office policy states it will minimize the risk of loss due to the failure of a security issuer or backer by pre-approving financial institutions, companies, brokers and dealers and conducting regular credit monitoring and due diligence. MoDOT's policy for the investment portfolios of non-pooled funds states they are to be limited to the safest types of securities, as described above. The policies for both portfolios require diversification so potential losses on individual securities will be minimized.

Concentration of Credit Risk – The policies of both the State Treasurer's Office and the Department state investments are to be diversified and limits are set to minimize the risk of loss resulting from excess concentration in a specific maturity, issuer or class of security. The asset allocation is periodically reviewed by the State Treasurer and the Department's investment advisor. At June 30, 2015 and 2014, no investments in any one organization (other than those issued or sponsored by the U.S. Government and those in pooled investments) represented 5.0 percent of total investments.

At June 30, 2015, the Department's cash and investments consisted of the following:

	State Highways and Transportation Department Fund	State Road Fund	State Road Bond Fund	Nonmajor Funds	Internal Service Funds	Agency Funds
Cash and investments:						
Cash and investments pooled in the State Treasury	\$6,761,118	\$713,355,794	\$41,015,693	\$24,130,231	\$ ---	\$ ---

U.S. Treasury obligations	---	---	---	---	200,000	---
Certificate of deposit	---	---	---	---	100,000	---
Repurchase agreements	---	---	---	---	---	38,974,126
Total	<u>\$ ---</u>	<u>\$ 71,950,000</u>	<u>\$ ---</u>	<u>\$ ---</u>	<u>\$ 300,000</u>	<u>\$65,114,355</u>

The maturities of mortgage-backed investments have been estimated based on the weighted average life of the investment type. Estimated maturities will differ from actual maturities because issuers may have the right to call or prepay obligations.

At June 30, 2015, the Department's investments had the following maturities:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Investment Maturities (in years)</u>		
		<u>Less than 1</u>	<u>1 to 5</u>	<u>6 to 10</u>
Repurchase agreements	\$ 11,639,443	\$11,639,443	\$ ---	\$ ---
Certificate of deposit	100,000	100,000	---	---
U.S. Treasury obligations	216,864	---	216,864	---
U.S. agency obligations	<u>123,943,346</u>	<u>2,027,008</u>	<u>112,989,131</u>	<u>8,927,207</u>
	<u>\$135,899,653</u>	<u>\$13,766,451</u>	<u>\$113,205,995</u>	<u>\$8,927,207</u>

At June 30, 2014, the Department's investments had the following maturities:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Investment Maturities (in years)</u>		
		<u>Less than 1</u>	<u>1 to 5</u>	<u>6 to 10</u>
Repurchase agreements	\$ 67,188,078	\$ 67,188,078	\$ ---	\$ ---
Certificate of deposit	100,000	100,000	---	---
U.S. Treasury obligations	215,479	215,479	---	---
U.S. agency obligations	<u>133,149,698</u>	<u>8,554,851</u>	<u>111,259,332</u>	<u>13,335,515</u>
	<u>\$200,653,255</u>	<u>\$ 76,058,408</u>	<u>\$111,259,332</u>	<u>\$13,335,515</u>

At June 30, 2015, the Department's non-pooled investments were rated as shown below:

<u>Investment Type</u>	<u>Moody's</u>	<u>Standard and Poor's</u>	<u>Fair Value</u>
U.S. agency obligations	Aaa	AA+	\$ 123,943,346
U.S. Treasury obligations	Aaa	AA+	216,864
Repurchase agreements	Aaa	AA+	<u>11,639,443</u>
			<u>\$ 135,799,653</u>

At June 30, 2014, the Department's non-pooled investments were rated as shown below:

<u>Investment Type</u>	<u>Moody's</u>	<u>Standard and Poor's</u>	<u>Fair Value</u>
U.S. agency obligations	Aaa	AA+	\$ 133,149,698
U.S. Treasury obligations	Aaa	AA+	215,479
Repurchase agreements	Aaa	AA+	<u>67,188,078</u>
			<u>\$200,553,255</u>

Note 3: Receivables

Reimbursement receivables consist of billings to outside entities for repayment of expenditures incurred by MoDOT. Also included are miscellaneous receivables from contractors and others. Reimbursement receivables are shown net of an allowance for doubtful accounts of \$2,957,672 and \$3,573,114 at June 30, 2015 and 2014, respectively. The Department provides an allowance based upon a review of the outstanding receivables, historical collection information and existing economic conditions.

Contributions receivable consists of amounts due from participating employers and members in the Department's insurance and risk management plans. The federal government receivable represents funds to be received on federally-participating projects. Loans receivable represents loans to cities and counties for nonhighway-related projects, such as airport improvements.

Receivables at June 30, 2015 for the government's individual major funds, nonmajor funds and internal service funds were as follows:

	State Highways and Transportation Department Fund	State Road Fund	State Road Bond Fund	Nonmajor Funds
State taxes and fees	\$ 97,565,630	\$ 18,895,606	\$14,746,988	\$ 487,837
Federal government	---	65,767,339	---	6,999,622
Miscellaneous:				
Reimbursements	2,367,153	21,018,051	---	1,184,980
Interest	61,134	1,193,231	95,762	29,773
Contributions	---	---	---	---
Total miscellaneous	<u>2,428,287</u>	<u>22,211,282</u>	<u>95,762</u>	<u>1,214,753</u>
Loans	---	---	---	<u>1,361,372</u>
Total receivables	<u>\$ 99,993,917</u>	<u>\$106,874,227</u>	<u>\$14,842,750</u>	<u>\$10,063,584</u>

Receivables at June 30, 2014 for the government's individual major funds, nonmajor funds and internal service funds were as follows:

	State Highways and Transportation Department Fund	State Road Fund	State Road Bond Fund	Nonmajor Funds
State taxes and fees	\$103,857,406	\$ 19,602,586	\$13,330,509	\$ 463,681
Federal government	---	62,053,996	---	15,725,239
Miscellaneous:

Note 5: Risk Management

The Department is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. In addition, various lawsuits against the Department arise incident to the Department's normal operations. These risks have been classified as workers' compensation, vehicle liability, general liability, condemnation and inverse condemnation, contractor suits, employment suits, environmental regulatory liability and levy and drainage district suits. It is the policy of the Department to manage its risks internally, with the exception of purchased earthquake and major building insurance policies. No insurance settlements exceeded coverage in the last three years. In addition, all state employees and officers are covered by the state's Legal Expense Fund.

(A) Workers' Compensation, Vehicle and General Liabilities

The Department sets aside assets for the settlement of workers' compensation, vehicle liability and general liability claims in an internal service fund, the MHTC Self Insurance Fund. Section 537.610, RSMo. limits the liability of the state and its public entities on claims within the scope of Sections 537.600 to 537.650, RSMo., except for those claims governed by the provisions of the Missouri Workers' Compensation Law, Chapter 287, RSMo. The limits were \$2,727,489 and \$2,687,594 for all claims arising out of a single accident or occurrence, and \$409,123 and \$403,139 for any one person in a single accident or occurrence, at June 30, 2015 and 2014, respectively, as set by the Missouri Department of Insurance.

Estimated pending self insurance claims represent the expected losses to be realized on known claims pending and include minor non-incremental claims adjustment expenses. Estimated unreported claims represent expected losses or claims incurred but not reported. Amounts are reported based on actuarial calculations. Liabilities for incurred losses related to workers' compensation and general and vehicle liability claims are reported at their discounted value, assuming an investment yield of 2.0 percent.

Changes in pending self insurance claims and incurred but not reported claims for workers' compensation, vehicle and general liability during the past two years are:

	<u>Beginning Balance</u>	<u>Current Claims and Estimate Changes</u>	<u>Claim Payments</u>	<u>Ending Balance</u>
2015	\$83,149,461	\$20,360,317	\$19,256,962	\$84,252,816
2014	\$85,261,962	\$18,839,985	\$20,952,486	\$83,149,461

(B) Other Claims

Claims for condemnation and inverse condemnation, contractor suits, levy and drainage district suits, environmental regulatory liability and employment suits are paid from the State Road Fund. Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. As listed in the Financing and Other Obligations note disclosure, the Department has approximately \$6,711,060 and \$2,892,945 in claims and judgments payable at June 30, 2015 and 2014, respectively. The Department is involved in other such suits for which no liability has been recorded, as a probable loss has not occurred. The aggregate potential liability of all claims deemed probable or possible to result in a loss was estimated to be approximately \$15,740,060 and \$15,515,445 as of June 30, 2015 and 2014, respectively. These estimates are within a range of \$2,988,105 to \$115,584,105 and \$5,728,966 to \$62,671,445 as of June 30, 2015 and 2014, respectively.

Note 6: Medical and Life Insurance Plan

The MoDOT and Missouri State Highway Patrol (MSHP) Insurance Plan (the Medical and Life Insurance Plan) Internal Service Fund accounts for the medical coverage provided on a self insured basis and life insurance benefits underwritten by commercial insurance companies. These benefits are available to employees, retirees, certain disabled employees, spouses, certain dependents and survivors of deceased employees and retirees of the Department, the MSHP and the MoDOT and Patrol Employees' Retirement System (MPERS). Changes to plan benefits and funding are required to be approved by the Commission. Incurred but not reported claims of \$11,000,000 and \$10,000,000 were reported in the Medical and Life Insurance Plan as of June 30, 2015 and 2014, respectively.

Claims incurred but not reported represent estimated unreported claims. This liability is established from an actuarial report, which is based on data provided by the Department and claims administrators. Changes in the incurred but not reported claims liability during the past two years are:

	<u>Beginning Balance</u>	<u>Current Claims and Estimate Changes</u>	<u>Claim Payments</u>	<u>Ending Balance</u>
2015	\$10,000,000	\$114,011,864	\$113,011,864	\$11,000,000
2014	\$10,100,000	\$104,908,887	\$105,008,887	\$10,000,000

Note 7: Pension Plan

(A) General Information about the Pension Plan

1. Plan Description

MPERS provides retirement, death, and disability benefits. MPERS was established in accordance with Section 104.020, RSMo., and is administered by an 11-member Board of Trustees. The plan is administered in accordance with the requirements of a cost sharing, multiple-employer, public employee retirement plan under the Revised Statutes of Missouri. MPERS is a part of the state of Missouri financial reporting entity and is included in the State's financial reports as a component unit shown as a pension trust fund. As a separate legal entity, MPERS issues its own stand-alone financial report, which provides detailed information regarding actuarial assumptions and funding progress. Copies may be requested from the MoDOT and Patrol Employees' Retirement System, P.O. Box 1930, Jefferson City, Missouri 65102, or can be found online at www.mpers.org.

2. Benefits Provided

Employees eligible to be members of MPERS are those working in a position that normally requires the performance of duties for at least 1,040 hours annually. Benefits are designated by state statute. Any amendments to the plan require changes in state statute. MPERS has three benefit structures known as the Closed Plan, the Year 2000 Plan, and the Year 2000 Plan - 2011 Tier.

Closed Plan - Employees covered by the Closed Plan are fully vested for benefits upon receiving five years of creditable service. The base benefit in the Closed Plan is equal to 1.6 percent multiplied by the final average pay multiplied by years of creditable service. For members employed prior to August 28, 1997, Cost of Living Allowances (COLAs) are provided annually based on 80.0 percent of the increase in the Consumer Price Index for all urban consumers for the United States (CPI-U). The minimum rate is 4.0 percent and the maximum rate is 5.0 percent, until the cumulative amount of COLAs equals 65.0 percent of the original benefit. Thereafter, the 4.0 percent minimum rate is eliminated and the annual COLA rate will be equal to 80.0 percent of the increase in the CPI-U (annual maximum of 5.0 percent). For members employed on or after August 28, 1997, COLAs are provided annually based on 80.0 percent of the increase in the CPI-U, up to a maximum rate of 5.0 percent. This benefit structure is closed to new entrants.

Year 2000 Plan - Employees covered by the Year 2000 Plan are fully vested for benefits upon earning five years of creditable service. The base benefit in the Year 2000 Plan is equal to 1.7 percent multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 80 receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8 percent multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80.0 percent of the increase in the CPI-U, up to a maximum rate of 5.0 percent. This benefit structure is closed to new entrants.

Year 2000 Plan - 2011 Tier - Employees covered by the Year 2000 Plan – 2011 Tier are fully vested for benefits upon earning 10 years of creditable service. The base benefit in the 2011 Tier is equal to 1.7 percent multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 90 receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8 percent multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80.0 percent of the change in the CPI-U, up to a maximum rate of 5.0 percent.

3. Contributions

Employer contributions paid to the system are determined by an actuary and are set by the Board. Annual contribution amounts are designed to fund in advance the benefits designated by state statute. Employee contribution amounts are designated by state statute. New employees hired for the first time on or after January 1, 2011 (Year 2000 Plan-2011 Tier) contribute 4.0 percent of their pay. The Department's contributions to MPERS for fiscal years 2015 and 2014 were 58.76 percent and 54.25 percent, respectively, of eligible (covered) payroll. Required employer contributions totaling \$124,597,572 and \$116,000,251 for fiscal years 2015 and 2014, respectively, represent funding of normal costs and amortization of the unfunded accrued liability. Actual contributions made were 100.0 percent of required contributions.

(B) Actuarial Information

The total pension liability was determined by an actuarial valuation as of June 30, 2014, using the following actuarial assumptions, applied to all prior periods included in the measurement:

Inflation	3.0%
Salary increases	3.5% to 11%
Investment rate of return	7.75%
Cost-of-living adjustments	2.40% compound

The mortality tables, for post-retirement mortality, used in evaluating allowances to be paid to non-disabled pensioners were the RP2000 Combined Healthy Mortality Tables, projected 16 years and set back one year for males and females. Pre-retirement mortality used was 70 percent for males and 50 percent for females of the postretirement tables, set back one year for males and females. Disabled pension mortality was based on Pension Benefit Guaranty Corporation's Disabled Mortality Tables. The healthy mortality tables include a margin for mortality improvement. The margin is in the 16-year projection. The disabled mortality tables do not include a margin for mortality improvement.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2007 – June 30, 2012.

The Board of Trustees establishes MPERS' policy in regard to the allocation of invested assets, and may amend the policy. The following is MPERS current asset allocation policy:

<u>Asset Class</u>	<u>Target Allocation</u>
Global equity	30 %
Private equity	15
Fixed income	25
Real assets	5
Real estate	10
Hedge funds	15
Cash	0

The long-term (30-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return were adopted by the plan's trustees after considering input from the plan's investment consultant(s) and actuary(ies). These estimates for each major asset class included in MPERS' target asset allocation as of June 30, 2014 are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Global equity	5.05%
Private equity	6.75
Fixed income	0.59
Real assets	4.75
Real estate	2.75
Hedge funds	3.25

A single discount rate of 7.75 percent was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.75 percent. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the Department's proportional share of the plan's net pension liability, calculated using a single discount rate of 7.75 percent, as well as what the Department's proportional share of the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

<u>1 Percent Decrease</u> <u>(6.75%)</u>	<u>Current Discount Rate</u> <u>(7.75%)</u>	<u>1 Percent Increase</u> <u>(8.75%)</u>
\$1,357,138,116	\$1,079,844,816	\$848,581,820

(C) Liabilities, Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the Department reported a liability of \$1,079.84 million for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Department's proportion of the net pension liability was based on a projection of the Department's long-term share of contributions to the pension plan relative to the projected contributions of all participating departments, actuarially determined. At June 30, 2014, the Department's proportion was 63.79 percent. For the year ended June 30, 2015, the Department recognized pension expense of \$91.86 million. At June 30, 2015, the Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows</u> <u>of Resources</u>	<u>Deferred Inflows</u> <u>of Resources</u>
Difference between expected and actual experience	\$ ---	\$ 8,663,279
Net difference between projected and actual investment earnings on pension plan investment	---	97,294,407
Contributions subsequent to measurement date	<u>124,597,572</u>	---
Total	<u>\$124,597,572</u>	<u>\$105,957,686</u>

Deferred outflows of resources resulting from Department contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending</u>	<u>Net Deferred</u> <u>Outflows</u> <u>of Resources</u>
2016	\$ 26,896,675
2017	26,896,675
2018	26,896,675
2019	<u>25,267,661</u>
Total	<u>\$105,957,686</u>

Note 8: Other Post-Employment Benefits (OPEB)

The Department provides a portion of healthcare insurance through the Medical and Life Insurance Plan, as discussed in the prior Note, in accordance with Section 104.270, RSMo. For purposes of reporting OPEB costs and obligations in accordance with GASB Statement 45, the Insurance Plan is disclosed within the state of Missouri reporting entity as a single employer plan. However, it is disclosed for the Department's reporting purposes as an agent, multiple-employer plan, as it includes employees of MoDOT, MSHP and MPERS, and is not a separate legal entity. These other post-employment benefit costs are included in the Medical and Life Insurance Plan Internal Service Fund.

Eligible members are employees who retire from the Department participating in the Medical and Life Insurance Plan with a minimum of five years of creditable service if hired before January 1, 2011 or ten years of creditable service if hired on or after January 1, 2011. Premiums vary by coverage categories, which include retirees, certain disabled employees, spouses, certain dependents and survivors of deceased employees and retirees. Members' and the Department's required contribution rates average approximately 31.7 percent and 68.3 percent, respectively, of total premiums. Plan member contributions range from \$81 to \$834 per month. The medical insurance benefits, and employer and member contribution amounts, are recommended by the Medical and Life Insurance Plan's Board of Trustees and are approved by the Commission. Retiree medical premiums are based on total years of service, with the Commission contributing 2.0 percent per year of service, not to exceed 50.0 percent of the total premium. The Insurance Plan is financed on a pay-as-you-go basis.

	Plan Total			Department Portion		
	2015	2014	2013	2015	2014	2013
Annual OPEB cost	\$ 72,601,215	\$ 73,230,318	\$ 104,781,853	\$ 50,179,235	\$ 50,586,458	\$ 75,151,587
Net OPEB obligations at year end	544,582,647	499,473,379	453,735,008	380,743,798	351,544,236	321,937,451
Percentage of annual OPEB cost contributed	n/a	n/a	n/a	42 %	42 %	29 %

The Department contributed \$21.0 million, including implicit rate subsidies, during each of the fiscal years 2015 and 2014. Payments for OPEB liabilities are made from the Road Fund. Although funding is not related to payroll amounts, an equivalent Annual Required Contribution (ARC) rate would be 23.7 percent and 23.7 percent of annual covered payroll of \$212,044,881 and \$213,845,536 for fiscal years 2015 and 2014, respectively. MoDOT's share of the changes in the Plan's net OPEB obligation at June 30, 2015 and 2014 is as follows:

	2015	2014
Normal cost	\$ 17,238,832	\$ 17,238,832
Amortization payment	35,406,639	35,406,639
Interest on net OPEB obligation	18,188,537	16,856,231
Adjustment to ARC	(20,654,773)	(18,915,244)
Annual OPEB cost	50,179,235	50,586,458
Contributions	(20,979,673)	(20,979,673)
Increase in net OPEB obligation	29,199,562	29,606,785
Net OPEB obligation – beginning of year	351,544,236	321,937,451
Net OPEB obligation – end of year	\$ 380,743,798	\$ 351,544,236

Based on an actuarial valuation report as of July 1, 2013, the Plan's total actuarial accrued liability is \$842.8 million. Because the Plan is an internal service fund of the Department, the Plan's assets have not been set aside; therefore, there is no actuarial value of assets. The Department's portion of the actuarial accrued liability at year-end was as follows:

Actuarial accrued liability (AAL)	\$602,620,999
Actuarial value of assets	---
Unfunded actuarial accrued liability (UAAL)	\$602,620,999
Funded ratio (actuarial value of plan assets/AAL)	0 %
Fiscal Year 2015 covered payroll	\$212,044,881
UAAL as a percentage of covered payroll	284 %

Actuarial valuations reflect a long-term perspective and involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These calculations are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. A Schedule of Funding Progress, presented as Required Supplementary Information, follows the Notes to the Financial Statements. As allowed by the GASB, this reporting requirement is being implemented prospectively, as data is not available for prior years. Over time, a Schedule of Funding Progress presents trend information about whether the actuarial value of plan assets is increasing or decreasing relative to the actuarial accrued liability for benefits. The actuarial calculations have been based on the substantive plan in place at the time of valuation and on the pattern of cost sharing between the employers and members at that point.

The actuarial methods and assumptions utilized in the valuation were as follows:

Actuarial cost method	projected unit credit
UAAL amortization method	level dollar amount
UAAL amortization period, closed/open	30 years, open
Investment return (discount) rate	4.5 %
Healthcare cost trend rate	8%, decreasing to 5% in 2017

Note 9: Financing and Other Obligations

Changes in long-term obligations for the year ended June 30, 2015 were as follows:

Obligation	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
State road bonds	\$2,679,170,000	\$ ---	\$169,550,000	\$2,509,620,000	\$168,470,000
Notes issued	22,923,199	3,618,567	19,311,932	7,229,834	6,585,335

Claims and judgments	2,892,945	5,223,332	1,405,217	6,711,060	5,243,560
Compensated absences	33,432,838	20,767,706	21,928,350	32,272,194	21,928,350
Pollution remediation	---	2,980	2,980	---	---
	<u>\$2,738,511,665</u>	<u>\$29,630,947</u>	<u>\$212,249,406</u>	<u>\$2,555,893,206</u>	<u>\$202,265,942</u>
Amortization of financing activity:					
Discount				\$ (18,534)	
Premium				<u>199,322,027</u>	
				<u>\$2,755,196,699</u>	

Changes in long-term obligations for the year ended June 30, 2014 were as follows:

Obligation	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
State road bonds	\$2,918,000,000	\$900,990,000	\$1,139,820,000	\$2,679,170,000	\$169,550,000
Notes issued	26,404,304	13,240,156	16,721,261	22,923,199	15,693,366
Capital leases	2,268,795	(2,043,820)	132,292	92,683	48,257
Claims and judgments	4,420,473	2,176,595	3,704,123	2,892,945	2,809,746
Compensated absences	32,419,864	23,902,979	22,890,005	33,432,838	22,890,005
Pollution remediation	30,000	---	30,000	---	---
	<u>\$2,983,543,436</u>	<u>\$938,265,910</u>	<u>\$1,183,297,681</u>	<u>\$2,738,511,665</u>	<u>\$210,991,374</u>
Amortization of financing activity:					
Discount				\$ (24,404)	
Premium				<u>229,613,740</u>	
				<u>\$2,968,101,001</u>	

Information related to claims and judgments and compensated absences can be found in the Summary of Significant Accounting Policies Note and the Risk Management Note.

Payments on State Road bonds are made from the Road Fund and the Road Bond Fund. Compensated absences are made by the governmental funds from which the related salaries are paid. All other long-term obligation payments are liquidated from the Road Fund.

House Bill 1742, signed by the Governor on May 30, 2000, authorized the Department to issue bonds of \$2.25 billion through 2006, with no more than \$500.0 million issued in any one year. Under Constitutional Amendment 3, approved by Missouri voters on November 2, 2004, the authority of the Commission to issue State Road bonds is not subject to statutory provisions.

(A) State Road Bonds**1. Bonded Debt Detail:**

	2015	2014
Series A 2005 State Road bonds, originally issued for \$278,660,000, to finance projects pursuant to the Smoother, Safer, Sooner road and bridge program, due in annual installments of \$23,835,000 to \$33,940,000 beginning May 1, 2006 through 2015; interest varying from 2.50 percent to 5.00 percent; secured by revenues collected under Article IV, Section 30(b) of the Missouri Constitution.	\$ ---	\$ 33,940,000
Series B 2005 State Road bonds, originally issued for \$72,000,000, to finance projects pursuant to the Smoother, Safer, Sooner road and bridge program, demand bonds due in 2015; variable interest rate determined weekly, not to exceed 10 percent or the maximum rate permitted by law; secured by revenues collected under Article IV, Section 30(b) of the Missouri Constitution. See Variable Rate Demand Bonds subsection.	---	15,660,000
Series A 2006 State Road bonds, originally issued for \$296,670,000, to finance projects pursuant to the Smoother, Safer, Sooner road and bridge program; due in annual installments of \$10,000,000 to \$49,085,000; beginning in 2009 through 2021; interest varying from 3.75 percent to 5.00 percent; secured by revenues collected under Article IV, Section 30(b) of the Missouri Constitution.	22,520,000	42,520,000
Series 2006 Refunding State Road bonds, originally issued for \$394,870,000, to advance refund certain portions of Series A 2000 through 2003 State Road bonds; due in annual installments of \$13,110,000 to \$61,200,000 beginning February 1, 2013 through 2022; interest varying from 4.00 percent to 5.00 percent; secured by revenues collected under Article IV, Section 30(b) of the Missouri Constitution.	291,045,000	340,235,000
Series A 2007 State Road bonds, originally issued for \$526,800,000, to finance projects pursuant to the Smoother, Safer, Sooner road and bridge program due in annual installments of \$1,600,000 to \$69,765,000 beginning in 2009 through 2027; interest varying from 4.00 percent to 5.25 percent; secured by revenues collected under Article IV, Section 30(b) of the Missouri Constitution.	143,175,000	156,730,000
Series A 2008 Federal Reimbursement State Road bonds, originally issued for \$142,735,000, to finance federally-eligible projects, including the new I-64 project in St. Louis, due in annual installments of \$7,140,000 to \$12,870,000 beginning in 2011 through 2025; interest varying from 3.00 percent to 5.00 percent; secured by revenues collected from federal highway reimbursements.	104,805,000	112,860,000
Series A 2009 Federal Reimbursement State Road bonds, originally issued for \$195,625,000, to finance federally-eligible projects, including the Safe and Sound bridge program, due in annual installments of \$14,505,000 to \$21,870,000 beginning in 2011 through 2021; interest varying from 2.00 percent to 5.00 percent; secured by revenues collected from federal highway reimbursements.	117,365,000	134,190,000
Series B 2009 Federal Reimbursement State Road bonds, originally issued for \$404,375,000, to finance federally-eligible projects, including the Safe and Sound bridge program, due in annual installments of \$23,175,000 to \$43,250,000 beginning in 2022 through 2033; interest varying from 4.80 percent to 5.45 percent, exclusive of expected U.S. Treasury subsidy; secured by revenues collected from federal highway reimbursements.	404,375,000	404,375,000
Series C 2009 State Road bonds, originally issued for \$300,000,000, to finance projects pursuant to Amendment 3 due in annual installments of \$19,070,000 to \$28,015,000 beginning in 2017 through 2029; interest varying from 4.31 percent to 5.63 percent, exclusive of expected U.S. Treasury subsidy; secured by revenues collected under Article IV, Section 30(b) of the Missouri Constitution.	300,000,000	300,000,000

Series A 2010 Federal Reimbursement State Road bonds, originally issued for \$128,865,000, to finance federally-eligible projects, including the new Mississippi River Bridge in St. Louis and the Safe and Sound bridge program, due in annual installments of \$2,745,000 to \$13,610,000 beginning in 2011 through 2022; interest varying from 1.50 percent to 5.00 percent; secured by revenues collected from federal highway reimbursements.

\$ 77,460,000 \$ 88,580,000

Series B 2010 Federal Reimbursement State Road bonds, originally issued for \$56,135,000, to finance federally-eligible projects, including the new Mississippi River Bridge in St. Louis and the Safe and Sound bridge program, due in annual installments of \$11,290,000 to \$15,425,000 beginning in 2022 through 2025; interest varying from 4.72 percent to 5.02 percent, exclusive of expected U.S. Treasury subsidy; secured by revenues collected from federal highway reimbursements.

56,135,000 56,135,000

Series C 2010 Refunding State Road bonds, originally issued for \$130,390,000, to advance refund certain portions of Series A 2001 through 2003 State Road bonds; due in annual installments of \$1,205,000 to \$31,145,000 beginning February 1, 2013 through 2023; interest varying from 3.00 percent to 5.00 percent; secured by revenues collected under Article IV, Section 30(b) of the Missouri Constitution.

91,750,000 92,955,000

Series A 2014 First Lien Refunding State Road bonds, originally issued for \$589,015,000, to advance refund certain portions of Series A & B 2006 First Lien State Road bonds; due in annual installments of \$18,810,000 to \$104,510,000 beginning May 1, 2017 through 2026; interest varying from 2.00 percent to 5.00 percent; secured by revenues collected under Article IV, Section 30(b) of the Missouri Constitution.

589,015,000 589,015,000

Series B 2014 Second Lien Refunding State Road bonds, originally issued for \$311,975,000, to advance refund certain portions of Series 2007 Second Lien State Road bonds; due in annual installments of \$3,130,000 to \$68,350,000 beginning May 1, 2018 through 2025; interest varying from 3.00 percent to 5.00 percent; secured by revenues collected under Article IV, Section 30(b) of the Missouri Constitution.

311,975,000 311,975,000
\$2,509,620,000 \$2,679,170,000

2. Tax Status of Bonds

Tax-Exempt issuances: The Series Refunding Series 2006 and 2010 bonds are Senior Bonds and would take priority in payment over other bonds. The Series A and B 2006 and Refunding Series A 2014 bonds are First Lien bonds. The Series A 2005 bonds were First Lien bonds. The Series A 2007 bonds and Refunding Series B 2014 are Second Lien bonds. The Series B 2005 bonds were Third Lien bonds. The Series A 2008, A 2009 and A 2010 bonds are liens on federal highway reimbursement revenues. As tax-exempt issuances, these bonds are subject to federal arbitrage regulations.

Taxable issuances: The Series B 2009 and B 2010 bonds are liens on federal highway reimbursement revenues. The Series C 2009 bonds are Third Lien bonds. These bonds are taxable Build America Bonds as established under the American Recovery and Reinvestment Act of 2009.

3. Variable Rate Demand Bonds

The Series B 2005 State Road bonds were issued as variable rate instruments with weekly rate changes and matured May 1, 2015. The remarketing agents determined the interest rate as the lowest rate that would permit the bonds to be sold at par. During the year, interest rates ranged from 0.02 percent to 0.08 percent. Accrued interest was paid on a monthly basis. These bonds were demand obligations and were subject to tender. If the tendered bonds could not have been remarketed, the remarketing agents had agreed to purchase the bonds and hold them for a maximum of 180 days. The remarketing agents received quarterly fees to provide the service. The fees were 7.5 basis points of amounts outstanding.

Under an irrevocable letter of credit issued by State Street Bank and Trust Company, the bank was obligated to pay the bond trustee the purchase price of bonds not remarketed. The original letter of credit expired July 21, 2012. The letter of credit was extended to match the final maturity of the bonds, May 1, 2015. No monies were drawn on the letter of credit. The Department paid quarterly fees of 17 basis points to the bank on the original letter of credit. Under the extended letter of credit, the quarterly fees were 60 basis points.

4. Bond Debt Maturity

Annual debt service requirements to maturity are indicated in the following schedule. The interest amounts for the demand obligation bonds reflect the year-end rate of 0.18 percent and are based upon the current debt service schedule. The interest payments for the Build America Bonds are shown excluding the expected receipt of interest subsidy payments from the U.S. Treasury.

<u>Fiscal Year</u>	<u>Principal Due</u>	<u>Interest Due</u>	<u>Total Due</u>
2016	\$ 168,470,000	\$124,630,321	\$ 293,100,321
2017	190,770,000	116,788,687	307,558,687
2018	200,185,000	107,954,523	308,139,523
2019	209,355,000	98,351,723	307,706,723
2020	218,270,000	88,317,734	306,587,734
2021-2025	980,165,000	287,129,109	1,267,294,109
2026-2030	417,055,000	86,967,874	504,022,874
2031-2034	<u>125,350,000</u>	<u>13,809,337</u>	<u>139,159,337</u>
	<u>\$2,509,620,000</u>	<u>\$923,949,308</u>	<u>\$3,433,569,308</u>

5. Defeased Debt – Fiscal Year 2014

In June 2014, the Commission issued \$901.0 million in State Road Bonds with interest rates ranging from 2.00 percent to 5.00 percent to advance refund \$977.8 million of outstanding State Road Bonds. The net proceeds of \$1,082.2 million were deposited into an irrevocable trust with an escrow agent to purchase State and Local Government Securities (SLGS) and U.S. Treasury Notes to provide for future debt service payments of portions of the Series A 2006, B 2006, and 2007 bonds. As a result, those portions of the bonds are considered defeased, and the liability for those bonds has been removed from the Department's government-wide statements of net position. The reacquisition price (\$1,086.7 million) exceeded the net carrying amount of the old debt (\$1,001.1 million) by \$85.6 million. This advanced refunding was undertaken to reduce total debt service payments by \$122.7 million and resulted in an economic gain (present value savings) of \$105.6 million. The amounts of outstanding bonds considered defeased at June 30, 2015 and 2014 are as follows:

<u>Bond Series</u>	<u>Principal Defeased</u>
2006 A	\$149,150,000
2006 B	503,330,000
2007	325,290,000
Total	<u>\$977,770,000</u>

(B) Notes Issued**1. Notes Issued Detail:**

	<u>2015</u>	<u>2014</u>
City of Kansas City; to make improvements at Route 150 and Botts Road; principal due August 1, 2012 and August 1, 2013; no interest will accrue.	\$ ---	\$ 2,684,000
Kansas City Tax Increment Financing Commission; to construct interchange improvements at I-29 and Tiffany Springs Parkway; principal due August 15, 2014; no interest will accrue.	---	4,088,705
City of O'Fallon; to accelerate a portion of the Route 364 (Page Avenue Extension) project, which consists of constructing a south outer road; principal due July 1, 2015; no interest will accrue.	6,585,335	6,585,335
City of Poplar Bluff; to improve intersections at Route 67, Business Route 67, and Oak Grove Road; principal due August 1, 2014; no interest will accrue.	---	3,647,331
County of St. Charles; to provide a location, needs and cost study of a river crossing on Highway 40 between St. Louis County and St. Charles County; principal due July 1, 2020; no interest will accrue.	644,499	644,498
County of St. Charles; to make improvements to I-70 at Mid Rivers Mall Drive interchange and Route 370; principal due August 1, 2014; no interest will accrue.	---	3,334,405
Highway 71/291 Transportation Development District; to make improvements to the Route 291 and Route 71 interchange in the City of Harrisonville; principal due August 15, 2014; no interest will accrue.	<u>---</u>	<u>1,938,925</u>
	<u>\$ 7,229,834</u>	<u>\$22,923,199</u>

2. Notes Issued Debt Maturity

Annual debt service requirements to maturity for all notes issued are indicated in the following schedule. In addition to the notes described in Notes Issued Detailed, the Commission is responsible for loan interest payments to make improvements to Highway 36, due in annual installments beginning in fiscal year 2011 through 2020, at an interest rate of 3.99 percent. The U.S. Highway 36 – Interstate 72 Corridor Transportation Development District is responsible for principal payments.

<u>Fiscal Year</u>	<u>Principal Due</u>	<u>Interest Due</u>	<u>Total Due</u>
2016	\$6,585,335	\$ 627,680	\$7,213,015
2017	---	506,783	506,783
2018	---	382,894	382,894
2019	---	259,403	259,403
2020	---	155,065	155,065
2021-2025	<u>644,499</u>	<u>---</u>	<u>644,499</u>
	<u>\$7,229,834</u>	<u>\$1,931,825</u>	<u>\$9,161,659</u>

(C) Capital Lease Obligations

The Department is committed under several capital leases to finance the acquisition of various vehicles and equipment, as well as a building. Lease-purchase agreements for equipment, vehicles and the building grant a security interest in the related capital assets. The assets acquired through these capital leases are included in capital assets as follows:

	<u>2015</u>	<u>2014</u>
Equipment	\$176,431	\$158,069
Less: accumulated depreciation	<u>118,239</u>	<u>64,125</u>
Capital leased assets, net	<u>\$ 58,192</u>	<u>\$ 93,944</u>

The following schedule presents the future minimum lease payments under the capital leases and the present value of the future minimum lease payments as of June 30, 2015:

2016	39,470
2017	12,034
2018	7,722
2019	1,925
2020	<u>163</u>
Total minimum lease payments	61,314
Less: amount representing interest	<u>1,196</u>
Present value of minimum lease payments	<u>\$60,118</u>

(D) Pollution Remediation Obligations

MoDOT is involved in remediation activities in two instances related to buildings and grounds caused by contamination and a fuel leak. The potential for additional pollution remediation exists; however, any future remediation obligations are not yet estimable.

Note 10: Tax Revenues

Tax revenues for the fiscal years 2015 and 2014 were as follows:

	State Highways and Transportation Department Fund	State Road Fund	State Road Bond Fund	Nonmajor Funds	Total 2015
Fuel taxes	\$492,700,999	\$ 128,680	\$ ---	\$ 246,646	\$493,076,325
Sales and use taxes	<u>1,624,896</u>	<u>159,900,440</u>	<u>164,274,352</u>	<u>9,620,024</u>	<u>335,419,712</u>
Total tax revenue	<u>\$494,325,895</u>	<u>\$160,029,120</u>	<u>\$164,274,352</u>	<u>\$9,866,670</u>	<u>\$828,496,037</u>

	State Highways and Transportation Department Fund	State Road Fund	State Road Bond Fund	Nonmajor Funds	Total 2014
Fuel taxes	\$489,629,923	\$ 128,032	\$ ---	\$ 225,963	\$489,983,918
Sales and use taxes	<u>2,320,388</u>	<u>147,776,270</u>	<u>151,612,341</u>	<u>10,052,031</u>	<u>311,761,030</u>
Total tax revenue	<u>\$491,950,311</u>	<u>\$147,904,302</u>	<u>\$151,612,341</u>	<u>\$10,277,994</u>	<u>\$801,744,948</u>

Taxes are remitted by the Missouri Department of Revenue to the Department subsequent to collection. The Department receives the following taxes:

- **Fuel taxes** are paid on the sale of gasoline, aviation fuel used in propelling aircraft with reciprocating engines and diesel fuel. The taxes are authorized by Sections 142.010 – 142.350, 155.080 and 155.090, and 142.362 – 142.621, RSMo. The tax rate on gasoline and diesel fuels is \$0.17 per gallon. The State receives 75.0 percent of the first \$0.11 and 70.0 percent of the next \$0.06. The remaining tax is distributed to cities and counties. In addition, the Department receives the entire tax on aviation fuel of \$0.09 per gallon.
- **Sales and use taxes** are paid on the purchase of any new or used motor vehicle or trailer, on vehicles purchased out of state and titled in Missouri and on the sale of a vehicle between individuals within Missouri. The taxes are authorized by Sections 144.070 and 144.440, RSMo. The general sales tax rate is 3.0 percent and Proposition C tax (Section 144.701, RSMo.) is 1.0 percent, for a total of 4.0 percent. The Department receives 75.0 percent of the motor vehicle sales voter-approved Constitutional Amendment 3 tax. The remainder is distributed to cities, counties and school districts. In fiscal year 2013, the State received 100 percent of the 3.0 percent general use tax and 75.0 percent of the Proposition C use tax. The other 25.0 percent of the Proposition C use tax is distributed to cities and counties. During the 2013 legislative session, the legislature passed changes to Sections 144.020 and 144.440, RSMo., that changed all state use tax to a state sales tax. The State no longer collects use tax on motor vehicle transactions, but motor vehicle transactions are subject to sales tax. In addition, the Department receives sales and use tax on jet fuel, limited to a maximum of \$10.0 million annually.

Note 11: Interfund Transactions

State statute (226.200, RSMo.) requires the transfer of unspent monies in the Highway Fund to the State Road Fund on a monthly basis. Transfers for the years ended June 30, 2015 and 2014 were as follows:

	<u>2015</u>		<u>2014</u>	
	<u>Transfers In</u>	<u>Transfers Out</u>	<u>Transfers In</u>	<u>Transfers Out</u>
State Highways and Transportation Department Fund	\$ ---	\$446,410,007	\$ ---	\$454,584,060
State Road Fund	459,967,612	34,898	476,745,383	---
State Road Bond Fund	34,898	---	---	---
Nonmajor Funds	---	13,557,605	---	22,161,323
Total transfers	<u>\$460,002,510</u>	<u>\$460,002,510</u>	<u>\$476,745,383</u>	<u>\$476,745,383</u>

The due to/from amounts in the Road Fund and non-major funds represent interfund services provided and used. Amounts receivable/payable as of June 30, 2015 and 2014 were as follows:

	<u>2015</u>		<u>2014</u>	
	<u>Receivable</u>	<u>Payable</u>	<u>Receivable</u>	<u>Payable</u>
State Road Fund	\$242,020	\$ ---	\$7,844,525	\$ ---
Nonmajor Funds	---	242,020	---	7,844,525
Total due to/from	<u>\$242,020</u>	<u>\$242,020</u>	<u>\$7,844,525</u>	<u>\$7,844,525</u>

Note 12: Commitments and Contingencies**(A) Unemployment Benefits**

The Department is subject to the Missouri Employment Security Law. Department employees who qualify are entitled to benefit payments during periods of unemployment. The Department is required to reimburse the Division of Employment Security for benefit payments made to its former employees. The Department has identified no practical method of estimating the amount of future benefit payments that may be made to former employees for wage credits earned prior to June 30, 2015 and 2014. Consequently, this potential obligation is not included in the accompanying basic financial statements. Total reimbursements made by the Department were \$206,258 and \$391,025 for fiscal years 2015 and 2014, respectively.

(B) Construction Commitments

Construction awards outstanding for both state and federal participating projects at June 30, 2015 and 2014 amounted to approximately \$590,272,914 and \$635,008,222, respectively. The federal portion of this total was \$491,575,358 and \$473,023,196, or approximately 83.28 percent and 74.49 percent, for 2015 and 2014, respectively.

(C) Operating Leases

The Department is committed under operating leases for buildings, as well as various office and maintenance equipment. Lease expenditures for the years ended June 30, 2015 and 2014 amounted to \$1,986,136 and \$2,251,075, respectively. Future minimum lease payments for these leases are as follows:

	<u>2015</u>	<u>2014</u>
Year ending:		
2015	\$ ---	\$355,904
2016	221,570	8,619
2017	55,044	2,155
2018	14,319	744
2019	744	744
2020	744	744
	<u>\$292,421</u>	<u>\$368,166</u>

(D) Federal Funding

The Department receives federal grants that are subject to review and audit by federal grantor agencies. This could result in requests for reimbursement by the grantor agency for any expenditures disallowed under grant terms. The Department believes such disallowances, if any, would be immaterial.

Note 13: Accounting Pronouncements and Restatements

MoDOT implemented GASB Statement 68, *Accounting and Financial Reporting for Pensions*, in fiscal year 2015. This statement establishes new financial reporting and disclosure requirements of the Department as an employer participating in a cost-sharing, multiple-employer, defined benefit pension plan. Under the new requirements, in addition to expanded note disclosure, the Department's financial statements reflect the accrual of unfunded actuarially-determined obligations. In addition, MoDOT implemented GASB Statement 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, in fiscal year 2015. This statement establishes accounting requirements related to certain pension contributions, effective with the implementation of GASB 68. The effect of the implementation on the comparative statements is as follows:

	<u>July 1, 2014</u>
Government-wide financial statements:	
Net Position, beginning of year, as previously reported	\$27,418,401,976
Restatement of net position, net pension liability	<u>(1,093,944,847)</u>
Net Position, beginning of year, as restated	<u>\$26,324,457,129</u>
Restatement consists of:	
Net pension liability is reported as a noncurrent liability, July 1, 2014	\$ 1,210,908,096
Contributions made subsequent to the beginning net pension liability's measurement date of June 30, 2013 are reported as deferred outflows of resources	<u>(116,963,249)</u>
	<u>\$ 1,093,944,847</u>

Fund balance, GAAP basis	<u>\$105,423,561</u>	<u>\$ 952,077,402</u>

Budgetary Principles and Presentation

The budgetary comparison schedules are presented on the State's budgetary basis of accounting. Under this basis, revenues are recognized when cash is received. Expenditures are recognized for cash disbursements made during the fiscal year and for cash adjustments made in the lapse period, as defined by the Office of Administration.

All governmental funds reported by MoDOT have legally adopted annual budgets. The legal authority for approval of the Department's budget and amendments for the State Highways and Transportation Department Fund rests with the State Legislature. The Commission approves the State Road Fund budget and amendments. The fund level is the legal level of control for the State Road Fund. However, at any time, the Commission may approve the Department to spend more or less than the State Legislature or the fund level of the State Road Fund, which will drive the Department's budget to be higher or lower than the other legal limits.

The Department develops its budget through processes involving the districts and the central office divisions. Upon Commission approval, the legislative budget request is sent to the Office of Administration on October 1 and is forwarded to the Governor's Office. The Governor develops a recommendation regarding the budget and forwards both the budget request and the recommendation to the Legislature. The Legislature generally acts on budget matters between January and May. The Governor has veto authority and generally acts on those matters in June. Upon Commission approval in June, the Department then internally distributes available funds based on input and feedback from the districts and the central office divisions.

Required Supplementary Information

Schedule of Proportionate Share of Net Pension Liability (NPL)*

<u>Actuarial Valuation Date</u>	<u>MoDOT's Proportion of NPL</u>	<u>MoDOT's Share of NPL</u>	<u>MoDOT's Covered Payroll</u>	<u>MoDOT's NPL as a Percentage of Covered Payroll</u>	<u>Plan Fiduciary Net Position as a Percentage of Total Pension Liability</u>
6/30/2014	63.79 %	\$1,079,844,816	\$213,845,536	504.96 %	53.63 %

*This schedule will ultimately present ten years of data when available.

Required Supplementary Information

Schedule of Pension Contributions

<u>Fiscal Year</u>	<u>Actuarially Determined Contributions</u>	<u>Actual Contributions</u>	<u>Contribution Deficiency (Excess)</u>	<u>Covered Payroll</u>	<u>Contributions as of Percentage of Covered Payroll</u>
2015	\$124,597,572	\$124,597,572	\$ ---	\$212,044,881	58.76 %
2014	116,000,251	116,000,251	---	213,845,536	54.24
2013	107,190,383	107,190,383	---	210,507,429	50.92
2012	102,014,954	102,014,954	---	224,455,344	45.45
2011	99,109,317	99,109,317	---	251,164,672	39.46
2010	83,667,034	83,667,034	---	266,455,521	31.40
2009	82,112,149	82,112,149	---	267,292,152	30.72
2008	81,450,011	81,450,011	---	262,657,307	31.01
2007	80,949,952	80,949,952	---	260,289,235	31.10
2006	75,755,230	75,755,230	---	248,459,265	30.49

There were no changes to benefit terms in the plan or to assumptions in valuations for the plan year ended June 30, 2014.

Required Supplementary Information

Schedule of Funding Progress for Other Post-Employment Benefits*

<u>Actuarial Valuation Date</u>	<u>Actuarial Value of Assets</u>	<u>Actuarial Accrued Liability (AAL)</u>	<u>Unfunded AAL (UAAL)</u>	<u>Funded Ratio</u>	<u>Covered Payroll</u>	<u>UAAL as a Percentage of Covered Payroll</u>
7/1/2013	---	\$602,620,999	\$602,620,999	0 %	\$213,845,536	282 %
7/1/2011	---	783,896,843	783,896,843	0	224,455,344	349
7/1/2009	---	798,601,629	798,601,629	0	266,455,521	300
7/1/2007	---	686,992,459	686,992,459	0	262,657,307	262

*This schedule will ultimately present ten years of data when available.

Actuarial valuations are performed biennially. The Department is the majority employer participating in the MoDOT and MSHP Medical and Life Insurance Plan. The Insurance Plan's total actuarial accrued liability is \$842.8 million.

Because the Insurance Plan is an internal service fund of the Department, the net assets have not been set aside; therefore, there is no actuarial value of assets. This results in a calculated funded ratio of zero percent. The Insurance Plan is financed on a pay-as-you-go basis. The Plan's funding is not based on covered payroll; the required information is displayed for information purposes. Refer to the Medical and Life Insurance Plan and Other Post-Employee Benefits disclosures in the Notes to the Financial Statements for further information on the Insurance Plan.

Budgetary Comparison Schedules and Reconciliations Debt Service and Nonmajor Governmental Funds

Budgetary Comparison Schedule and Reconciliation

Debt Service – State Road Bond Fund

Year Ended June 30, 2015

With Summarized Financial Information for 2014

	Final Budgeted Amounts	Actual	Variances Between Final Budget and Actual	
			2015	2014
Budgetary fund balance, beginning of year	\$ 36,721,033	\$ 36,721,033	\$ ---	\$ ---
Resources (inflows)				
Vehicle sales and use tax	150,004,000	162,857,873	12,853,873	39,137,308
Interest	273,000	461,837	188,837	(523,564)
Amount available for appropriation	<u>186,998,033</u>	<u>200,040,743</u>	<u>13,042,710</u>	<u>38,613,744</u>
Charges to appropriations (outflows)				
Bond principal and interest payments	162,081,996	159,058,163	3,023,833	88,982
Total charges to appropriations	<u>162,081,996</u>	<u>159,058,163</u>	<u>3,023,833</u>	<u>88,982</u>
Budgetary fund balance, end of year	\$ <u>24,916,037</u>	\$ <u>40,982,580</u>	\$ <u>16,066,543</u>	\$ <u>38,702,726</u>

The following reconciliation is the difference between the state's budgetary basis and accounting principles generally accepted in the United States of America (GAAP) basis:

Reconciliation to GAAP	Actual 2015
Budgetary fund balance, end of year	\$40,982,580
Receivables	14,842,750
Payables	(1,000)
Change in fair value of investments	<u>34,113</u>
GAAP basis fund balance, end of year	<u>\$55,858,443</u>

Budgetary Comparison Schedule and Reconciliation

Financial Trends

These schedules are intended to assist in understanding and assessing the Department's financial performance over time.

Net Position – Government-wide	121
Changes in Net Position – Government-wide	122
Changes in Fund Balances – Governmental Funds	124
Fund Balances – Governmental Funds	126
Expenditures of Federal Awards	127

Revenue Capacity

These schedules are intended to assist in understanding and assessing the factors affecting Missouri's fuel tax, the Department's largest source of income.

Revenue Base – State Motor Fuel Taxes	128
Revenue Rates – State Motor Fuel Taxes	129
Principal Revenue Suppliers – State Motor Fuel Taxes	130

Debt Capacity

These schedules are intended to assist in understanding and assessing the Department's current burden and the Department's ability to issue additional debt in the future.

Ratios of Outstanding Debt	132
Pledged Revenue Coverage Related to Revenue Bonds	134

Demographic and Economic Information

These schedules are intended to assist in understanding the environment in which the Department's financial activities take place.

Population, Personal Income and Unemployment Rate	136
Employment Sectors	137
Licensed Drivers with Population Data	138
Vehicle Registrations with Fuel Tax Receipts	139

Operating Information

These schedules are intended to provide information about the Department's services and infrastructure.

Demand and Level of Service Indicators	140
Capital Asset Indicators	144
Employee Full-Time Equivalents (FTE)	146

Sources:

Unless otherwise stated, information in the following tables is derived from the Missouri Department of Transportation (MoDOT) annual financial reports for the years shown.

Note:

The objective of this statistical section is to provide users with historical perspective by presenting information for multiple years. Schedules originate with the year that the Department began tracking the information, the tracking process or data collection system changed, or it became administratively feasible to report retroactively.

Debt service as a percentage of total revenues	15 %	15 %	14 %	13 %

Notes:

Governmental fund financial statements are prepared on a modified accrual basis to report changes in net current financial resources. These statements differ from cash-based budget reports primarily because revenues are recognized if they are collected within 60 days of the end of the fiscal year and expenditures are recorded when the related liability is incurred, except that certain long-term obligations are recognized to the extent they have matured.

Some amounts have been recategorized for comparability and implementation of GASB 54, *Fund Balance Reporting and Governmental Fund Type Definitions* in fiscal year 2011.

Notes:

(1) Senior Bond Revenues consist of various percentages of the state motor fuel tax, sales and use taxes and motor vehicle fees, as set by the state's constitution and statutes. Revenues are reported net of refunds and exclude sales tax revenue deposited into the State Road Bond Fund.

(2) Operating Expenses consist of retirement benefit costs, the cost of enforcement of motor vehicle laws and the cost of collection of taxes and fees. The cost of collection reflects actual expenditures and does not reflect any Missouri Department of Revenue refunds associated with spending over the three percent cap during previous years.

(3) First, Second, Third Lien Revenues consist of sales taxes deposited into the State Road Bond Fund.

(4) First, Second, Third Lien Net Pledged Revenues consist of excess Senior Net Pledged Revenues and sales tax deposited into the State Road Bond Fund.

(5) Federal Reimbursement Revenues exclude American Recovery and Reinvestment Act revenue and amounts passed through to other political entities. For debt service coverage calculation purposes, excess First, Second, Third Lien Net Revenues are not included.

(6) Federal reimbursement interest is reported net of federal subsidies associated with Build America Bonds.

Sources:

MoDOT Tracker – Measures of Departmental Performance

Centerline miles provided by Transportation Planning Division

Notes:

(1) Assets of non-highway modes are not owned by the state. MoDOT administers funds to those entities, primarily through federal and state grants.

(2) Beginning in 2006, outer roadways were included in the mileage report.

(3) The Department's emphasis on Smooth Roads Initiative projects in 2005 and 2006 significantly increased the condition of major highways.

(4) The Safe and Sound Bridge Improvement program, completed in October 2012, rehabilitated 248 and replaced 554 bridges.

**Independent Auditors' Report On Internal
Control Over Financial Reporting And On
Compliance And Other Matters Based On An
Audit Of Financial Statements Performed In
Accordance With *Government Auditing Standards***

Missouri Highways and Transportation Commission
Missouri Department of Transportation
Jefferson City, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Missouri Department of Transportation (the Department), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements, and have issued our report thereon dated September 28, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Department's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance And Other Matters

As part of obtaining reasonable assurance about whether the Department's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose Of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
